Our Guarantee

The Paidar Chairs are made in the best possible manner and with the greatest care. We guarantee them against all possible defect in manufacture and workmanship.

If at any time any part of our chair is broken, we replace the part without cost.

The Paidar Chairs are the strongest, and the very fact that we will replace broken parts is the best proof of it.

We guarantee safe arrival of all goods shipped by us; provided you furnish us with the freight or express bill with breakage or shortage noted thereon by the Railroad or Express Company's agent in your city.

ORDERING—*Special Instructions*

WHEN ordering merchandise, it is always necessary that you write plainly, giving full name and address. Also, to specify just where and how the goods are to be shipped. Above all things, enumerate the items very carefully —giving them Catalogue number.

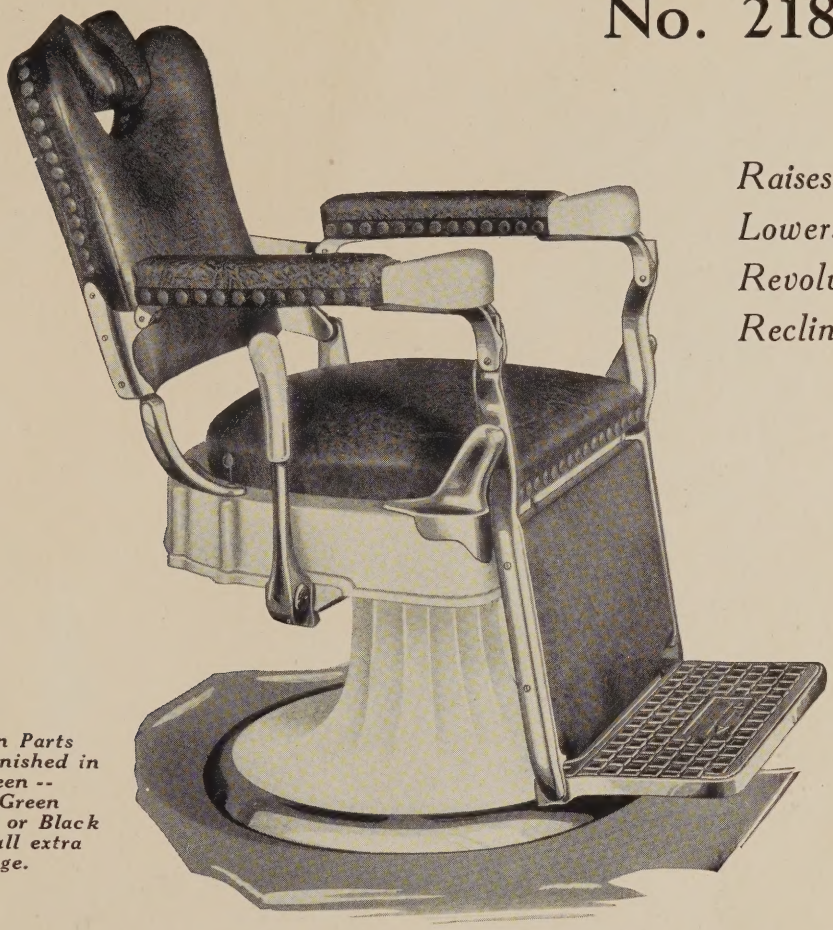
When ordering electrical equipment, be sure to mention whether you want "direct" or "alternating" current, and if alternating, state the number of volts and the number of cycles, for example: **110 v. 60 cyc. alternating.** If direct, state number of volts. (This information can be secured from the Electric Co.)

RECEIVING GOODS

WHEN the goods ordered are ready to be packed, they are all thoroughly inspected and tested, and when delivered to the freight depot, they are in perfect condition. We know, due to special pains taken when crating, that if damage occurs enroute it must have been due to rough handling.

We therefore, urge that when you receive a shipment, you have an inspection made **before** the goods are removed from the depot. If any damage is found, all you need to do is to mention it to the express or freight agent, and he will make notation of it on your paid bill. If, after you get the goods to your shop and are unpacking them, you see that something is damaged, don't finish unpacking, but telephone the agent. He must send an inspector to look over the goods and this inspector will report to the company. It is the only way that a claim will be entertained.

"Paidar" Hydraulic Hairdresser's Chair No. 218

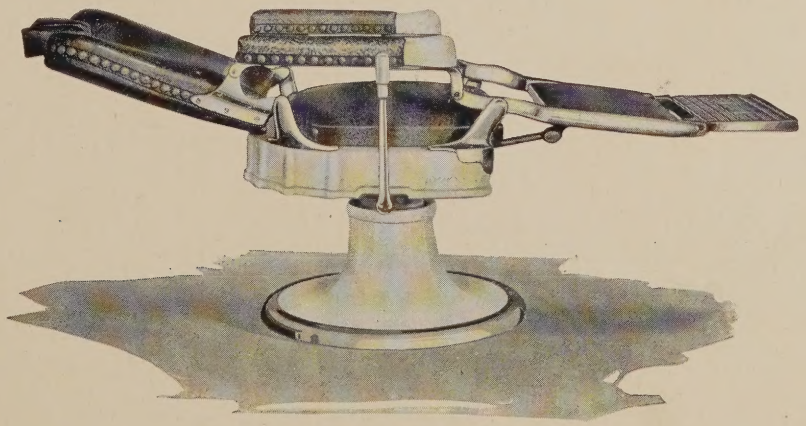


Raises
Lowers
Revolves
Reclines

Porcelain Parts Can be furnished in Jade Green -- Apple Green Ivory or Black At a small extra charge.

No. 218. Hairdresser's Chair

THIS chair is practically the same as the No. 232 shown on the following page. The only difference being that it does not have the porcelain back or porcelain apron. The seat frame, base, and all other exposed parts are of iron. The seat frame and base are white porcelain enameled as well as arm tips and the grip on the hand lever, while all other parts are nickel plated. This chair at its lowest point is 20½ inches from the floor to the top of the seat, and at its highest point, 26 inches. It is fitted with hydraulic mechanism which operates by use of the hand lever. It can be reclined to any angle desired. It locks automatically in any position when the pressure on the hand lever is released. The footrest can be laid flat as shown on the illustration below, or it might be left at right angles to the apron. Covered with genuine leather of a superior quality. Unless otherwise ordered, blue leather will be used.



Chair completely reclined. Footrest dropped down for comfort of the customer.

No. 239

Same chair with Comfo Footrest -- it adjusts itself automatically

No. 232

LOW MODEL—Adjustable footrest.
Height to top of seat when at its lowest, 20½ inches.
Height to top of seat when at its highest, 26 inches.

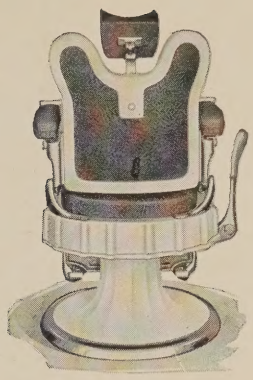
Back Frame—Porcelain Enameled.
Apron—Porcelain Enameled.
Upholstering—Highest quality.
Leather—Superior quality Blue Spanish, or other colors, when desired.

No. 235—Same style, but fitted with Comfo Footrest which works automatically, taking position in keeping with angle of back.

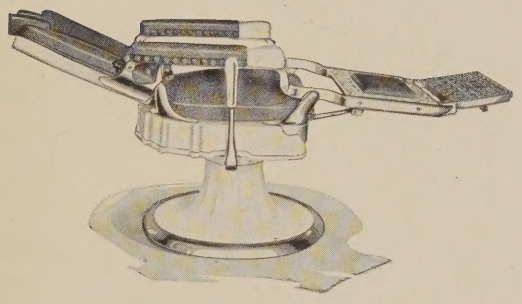
Hairdressers' Chair No. 232

THIS Chair is the very latest model and embodies every improvement of the Hairdressing Chairs. It is suitable for every kind of work and is designed to fill a long-felt need. When at its lowest point it is but slightly higher than an ordinary sitting chair which permits it to be used for all class of work, particularly Marcelling or Permanent Waving. It raises high enough for Bobbing and is made so a shampoo board will fit into the back in place of a Headrest. Notice—it can also be laid flat for Massage.

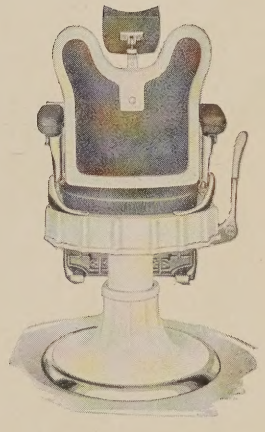
The mechanism is so simple it can be operated by anyone—there is nothing to get out of order or give trouble.



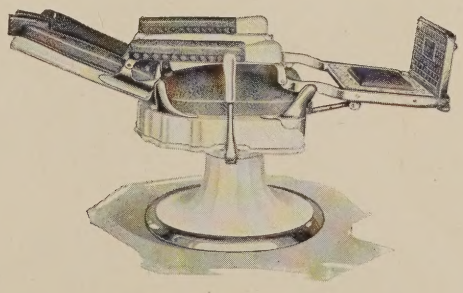
At Its Lowest
Top of Seat, 20½ Inches from Floor.



Fully Reclined
Footrest Flat for the Comfort of Customer.



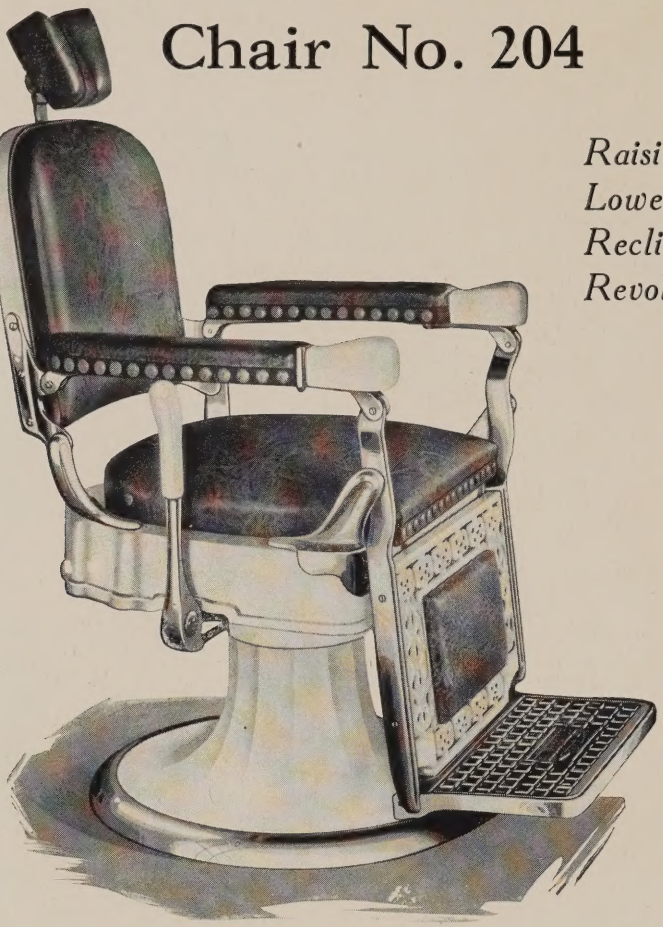
At Its Highest
Top of Seat, 26 Inches from Floor.



Fully Reclined
Footrest Rigid at Right Angle to Apron.

"Paidar" Hydraulic Hairdresser's Chair No. 204

Raising,
Lowering,
Reclining,
Revolving—

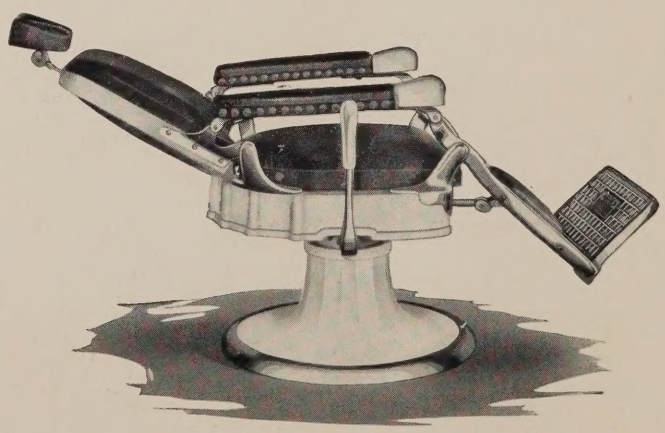


Porcelain Parts Can be furnished in Jade Green -- Apple Green -- Ivory or Black At a small extra charge.

No. 204. HAIRDRESSER'S CHAIR

THIS chair is popular with many operators on account of the fact that the back is a little narrower than the regular back of hairdressing chairs. This permits the operator to stand a little closer to the customer when performing the work. It is fitted with a hydraulic mechanism which permits raising it from its lowest point at 20½ inches to its highest point at 26 inches, by a few strokes of the hand lever. This chair is made entirely of iron, porcelain enameled, and is covered with high grade of genuine leather. The illustration at the bottom of the page shows to what extent the chair may be reclined. These chairs are made so that the shampoo board can be inserted in the back in place of the head-rest. Upholstered with best quality of oil tempered springs and other materials and covered with superior quality of genuine leather. Always furnished in blue, unless otherwise ordered.

This Cut Shows Chair Fully Reclined



"Paidar" Hydraulic Hairdressers' Chair No. 209

Raising,
Lowering,
Reclining,
Revolving—

Porcelain Parts Can be furnished in Jade Green -- Apple Green -- Ivory or Black At a small extra charge

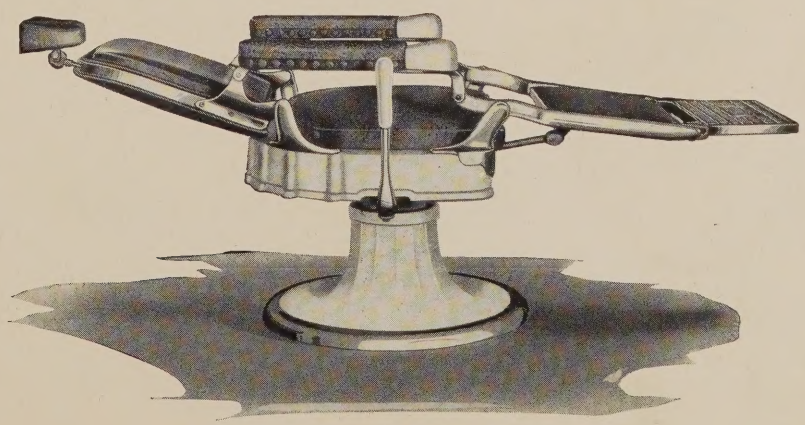
Height from floor to top of seat 20½ inches.

When raised to its highest, 26 inches.

No. 209. Hairdresser's Chair

THIS chair is fitted with our hydraulic mechanism which permits the chair to be raised from 20½ inches at the lowest point, to 26 inches at the highest, by a few short strokes of the hand lever. It is made entirely of iron, porcelain enameled, and is upholstered in the best possible manner with highest quality material. It is covered with a superior quality of leather which is always furnished in blue unless otherwise ordered. This chair has the narrow back which permits the operator to get a little closer to the customer when working. The chair can be reclined as shown on the illustration at the bottom of the page.

This cut shows the Chair fully reclined. Footrest flat for comfort of customer.



No. 213

As illustrated but fitted with automatic Comfo Footrest which flattens out as chair is reclined.

"Paidar" Non-Hydraulic Hairdressers' Chair

Revolves
Reclines

No. 665

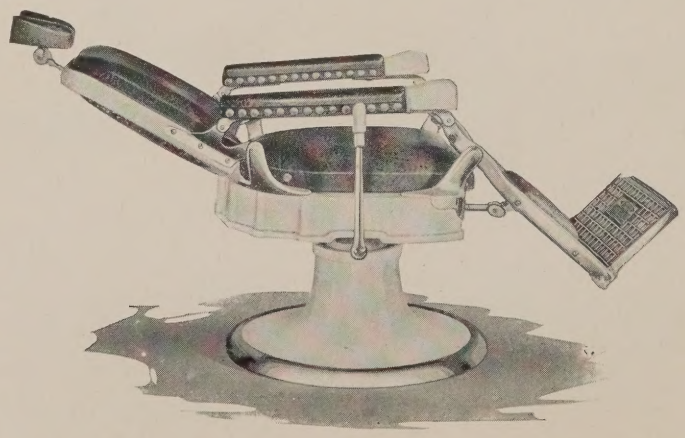
As shown, fitted with porcelain enameled back frame.

Porcelain Parts Can be furnished in Jade Green -- Apple Green -- Ivory or Black At a small extra charge.

No. 666

Same style as shown omitting the porcelain back frame and instead finished with large buttons of the same color as the leather.

THIS chair is made entirely of iron, porcelain enamel. It is equipped with mechanism which revolves and reclines only. Pressure on the hand lever releases the back so that it can be reclined to any desired position. By releasing the pressure it locks automatically. To revolve the chair the hand lever is placed backward as far as it will go. You will note that the back is narrow. This is made so that the operator can get closer to the customer to perform the work. The upholstering is done with the best quality of material and is covered with genuine blue leather. Other colors may be had when so ordered.



This cut shows chair reclined to its full extent.

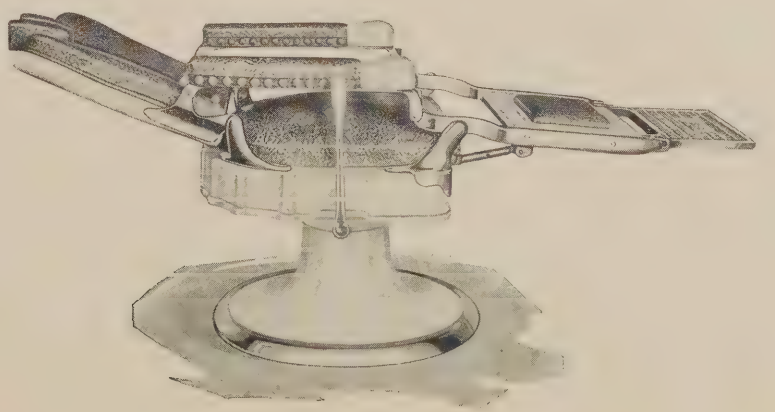
"Paidar" Non-Hydraulic Hairdressers' Chair No. 483

Revolves
Reclines

Porcelain Parts can be furnished in Jade Green -- Apple Green -- Ivory or Black At a small extra charge.

No. 483. Chair

THIS chair is made entirely of iron, porcelain enamel. It is fitted with a back frame and apron made of iron porcelain enamel which makes it very attractive. It is made as an all-purpose chair and can be used for hairdressing, as well as facial and shampooing. It revolves and reclines only. The height from the floor to the top of the seat is 20½ inches. To recline the chair all that is necessary is a forward pressure of the hand lever. When the pressure is released the mechanism will lock the back at any position in which it may be. To revolve the chair, the hand lever is brought back as far as it will go. All exposed metal parts are highly nickel plated; the upholstering is done in the very best possible manner and only the highest quality of material is used. It is covered with a superior quality of blue leather, although other colors may be had when so ordered. A shampoo board can be fitted into the back in place of the headrest, but is not furnished with the chair.



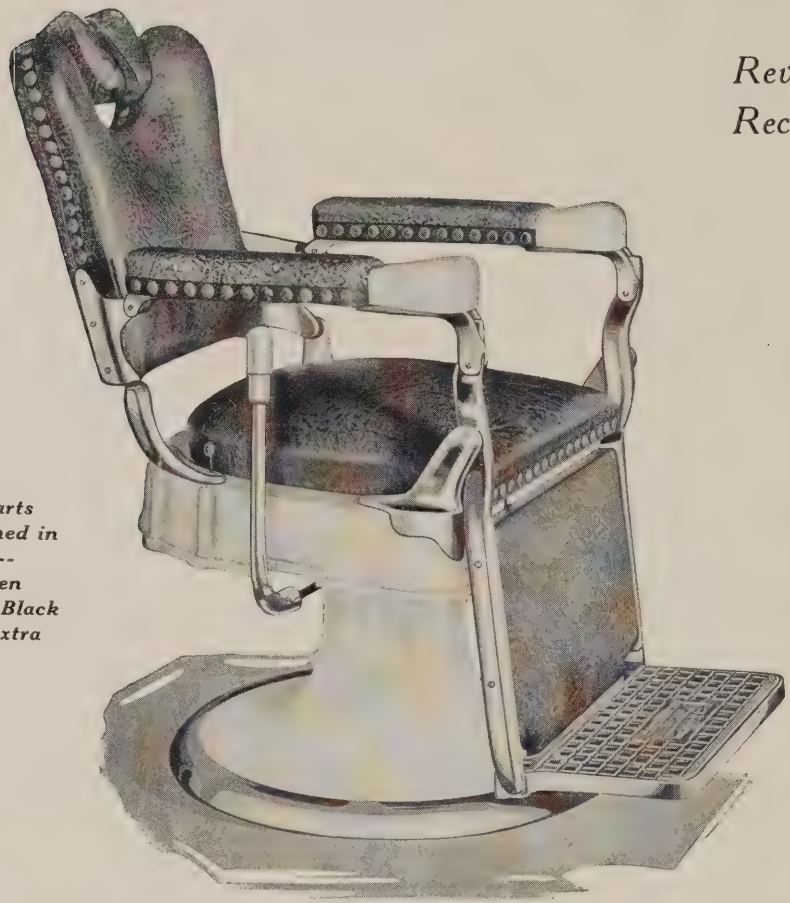
Fully Reclined Footrest dropped down for the comfort of the customer.

No. 489

Same as illustrated, but with Comfo Footrest which automatically adjusts itself to correspond with position of back.

"Paidar" Non-Hydraulic Hairdressers' Chair No. 453

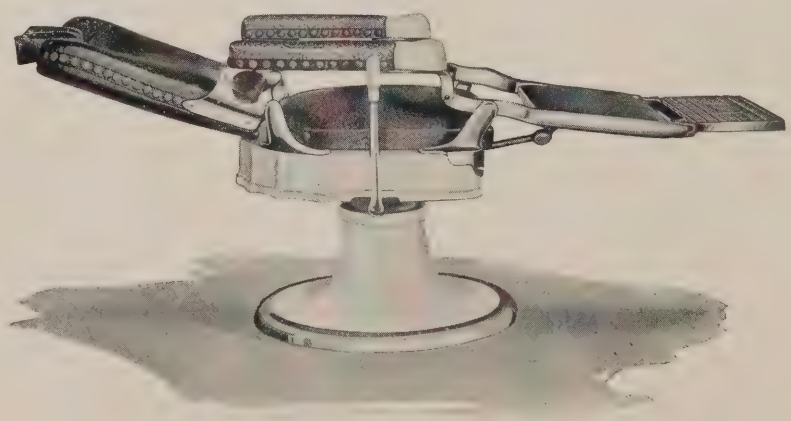
Revolves
Reclines



Porcelain Parts Can be furnished in Jade Green -- Apple Green Ivory or Black At a small extra charge.

No. 453. CHAIR

THIS is a non-hydraulic chair and is intended for all work in the beauty shop. It is low enough for hairdressing and facial; also shampoo. The chair is made of iron porcelain enameled and is upholstered in the best possible manner and is covered with a superior quality of blue leather. To recline the chair a forward pressure on the hand lever is all that is necessary. It will lock automatically upon releasing the pressure. To revolve the chair the hand lever is drawn backward as far as it will go. The footrest can be laid perfectly flat or may be left at right angle to the apron. This chair is made so that a shampoo board can be inserted in the back in place of the headrest.



This illustration shows the chair fully reclined with footrest dropped for the comfort of customer.

No. 452

Same as illustrated with Comfo Footrest which adjusts itself automatically

"Paidar" Universal Chair No. 36

With Comfo Footrest

Porcelain Parts can be furnished in Jade Green -- Apple Green -- Ivory or Black At a small extra charge.

THIS is the most satisfactory Hair Dressing Chair. Revolves and reclines to perfectly flat position. The Comfo footrest works automatically and adjusts itself according to the position of the back. Made of iron, porcelain enameled in pure white. All exposed metal parts highly nickel plated. Upholstered with genuine gray leather.

Height from floor to top of seat when upright, as shown in large illustration, 20½ inches; when flat as below, 22½ inches. Fitted with hand lever on each side. Can be furnished 4 inches higher than above when so ordered. If desired, can also be had with gray enamel and leather of any desired color.

For Shampoo or Facial

THE footrest is not at right angles to apron, but is at the angle which affords customer greatest comfort.

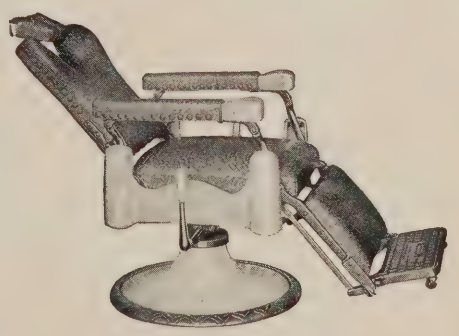
The Footrest Is Automatic

It conforms to the most comfortable and natural position of the feet.

No. 37

Same as described above, but four inches higher.

For massage, the chair is flat. Footrest conforms to the same position.



NOTE: How the footrest conforms to the same position or angle of back.

A New and Superior Hairdressers' Chair, "Paidar" No. 271

No. 271

IN this chair we are sure the discriminating hairdresser will find the chair which is simple in design—easy and comfortable for the customer—convenient and practical for the operator.

Height from floor to top of seat when at its lowest, 20 inches.

Height when raised to its full extent, 25½ inches.

Height from floor to top of back when down, 37 inches.

Width, between arms, 21 inches.

Seat measures 17 inches, front to rear.

Operating lever on each side.

Raises -- Lowers -- Revolves Reclines

This chair when customer is sitting upright, can be revolved in a space 4 feet square.

It is made especially for small booths.

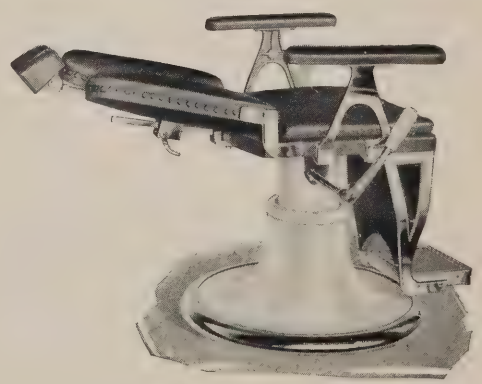
For a Higher Model, see No. 260 on Page 18.

THE base of this chair is made of iron, porcelain enameled with beautiful snow-white enamel.

All exposed metal parts are highly nickel plated.

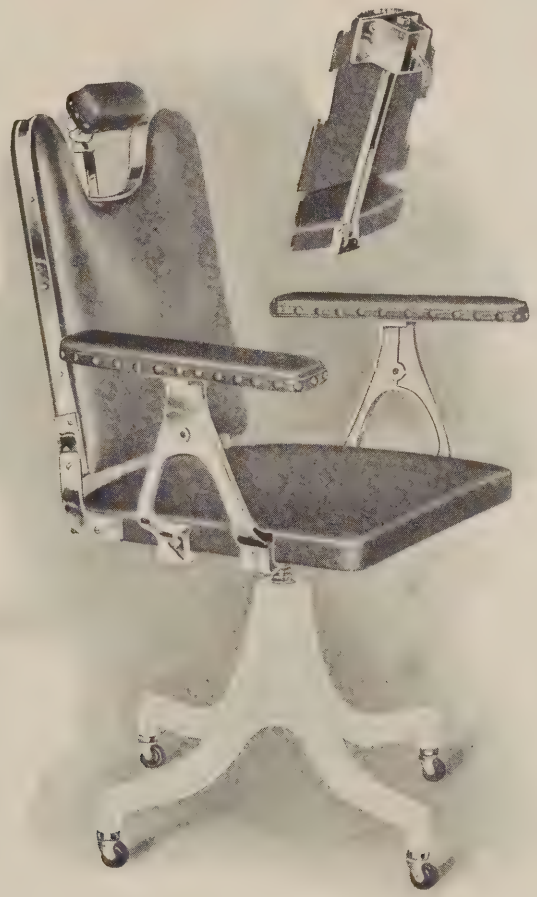
The upholstering is done in the most approved manner and a high quality of genuine leather is used. This leather is green in color and has a coarse grain known as goat grain.

This chair is fitted with Paidar hydraulic mechanism. The reclining mechanism is located on the back of the chair.



This illustration shows the chair fully reclined. It can be reclined to any position from upright to horizontal as shown. The step and apron remains rigid -- they do not move.

No. 877. Hairdressing Chair



Porcelain Parts Can be furnished in Jade Green -- Apple Green -- Ivory or Black At a small extra charge

THIS is probably the most satisfactory chair for general hairdressing work that has ever been produced. It is fitted with iron base, porcelain enameled, and the chair revolves and can be raised from 17½ inches to 23½ inches. The seat and back are upholstered in a high quality of leather and they are shaped so as to give the greatest comfort. The back is adjustable. The small illustration just above the chair shows the mechanism which is on the back. By lifting the lever the back can be reclined and locked at any position. This chair is suitable for hairdressing, shampooing or facials. The headrest is a very small size so that it might be used when giving permanents, etc., by being placed very low on the head. The band around the back is of nickeled silver, highly polished and all other exposed metal parts are nickel plated.

Fitted with lock to prevent turning.

"Paidar" Universal Chair No. 34

With Comfo Footrest

See color chart for other colors.

No. 34. Chair

THIS chair is made of wood, white enameled and covered with gray textile leather. all exposed metal parts are highly nickel plated. The mechanism is the most simple and can be operated from either side. This chair can be reclined to any position from upright to perfectly flat.

The Comfo Footrest works automatically and adjusts itself according to the position of the back. Height from floor to top of seat, 20½ inches; when laid out flat, 22½ inches.

This chair can be furnished in a high model which is four inches higher than above described, known as No. 35.

This Chair has the Comfo Footrest

This footrest is used on our No. 34 and No. 36 chairs. It is adjustable and operates **automatically,** taking a position in keeping with the angle of the back.

Notice the illustration on opposite page. When the chair is flat, the footrest is flat. When tilted for shampoo or facial, the footrest is in a position which is most comfortable for the customer.

Comfo footrest conforms to the natural position of the feet, and gives the customer comfort.

Demonstrating the Comfo Footrest

For Hairdressing

Note how convenient for the operator.

Used on
CHAIRS
No. 34 and 36

For Facials

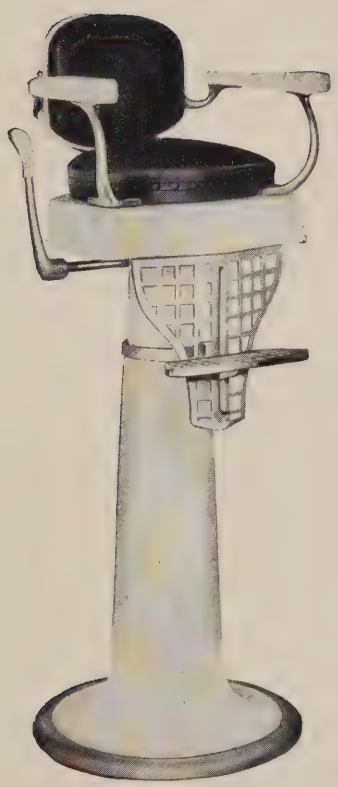
Hydraulic Child's Auto Hair Cutting Chair

Iron, Porcelain Enameled

SAME as our No. 70, equipped with an auto made of metal, painted green in color, decorated with yellow striping. It is fitted with our hydraulic machine for raising, lowering and revolving. It is also fitted with a steel porcelain enameled sleeve which covers the oily stem.

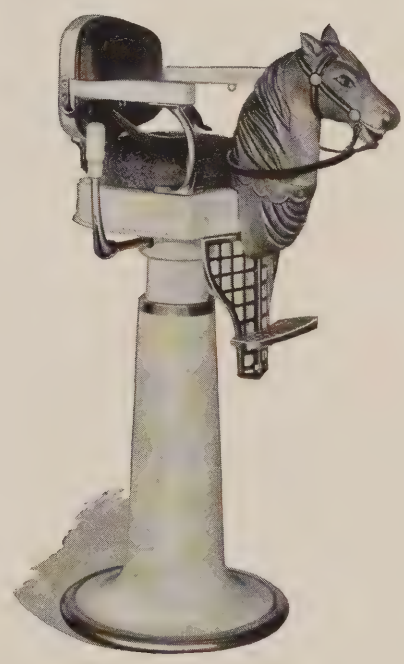


No. 70

Hydraulic Child's Hair Cutting Chair

Iron, Porcelain Enameled

A BEAUTIFUL, attractive and useful article for barber and beauty shops. The seat frame and pedestal base (one piece) are made of iron, white porcelain enameled. The seat, back frame, arm rests and hand lever are also of iron, porcelain enameled. The chair may be raised, lowered and revolved. The seat and back are luxuriously and lastingly upholstered and covered with genuine black leather unless otherwise ordered. The base ring and all other exposed metal parts are heavily nickel plated. The foot rest is quickly and easily raised or lowered. An important feature is the porcelain sleeve which surrounds the stem and hides it completely when the chair is raised. At no time is the oily stem in view.



No. 107

Hydraulic Child's Hair Cutting Chair

Iron, Porcelain Enameled

SAME as our No. 70. Fitted with a finely carved horse's head which can be removed when desired and as readily attached to the seat frame of the chair. This chair can be raised, lowered and revolved. It is fitted with a steel porcelain enameled sleeve which covers the oily stem.

A Combination Bobbing Chair of Unusual Merit, "Paidar" No. 260

No. 260

THIS chair is made especially for bobbing and has an adjustable back so that it can be used for facials, shampoo and similar work.

It is so constructed so as to revolve in very small space. When the customer is sitting upright in this chair, it can be revolved in a space 4 feet square.

Height from floor to top of seat when at its lowest, 23½ inches.

Raises to a height of 31½ inches.

Back can be laid flat.

Revolves.

Operating lever on each side.

Adjustable headrest.

Seat measures 17 inches, front to rear.

Back measures 17 inches high.

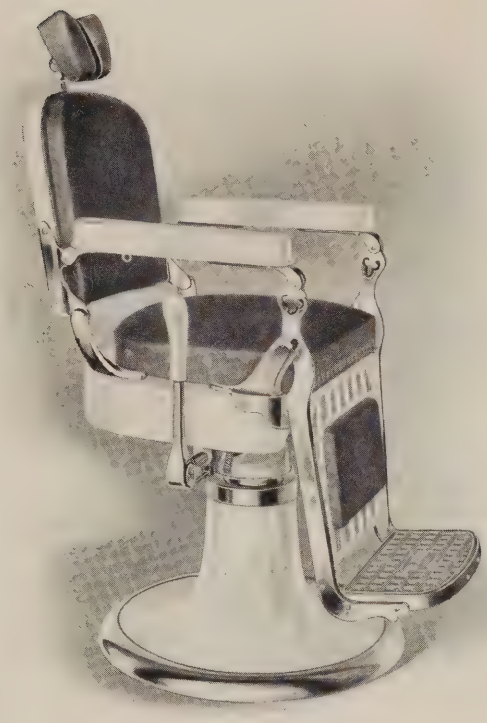
Space between arms, 21 inches.

For a Lower Model, see Style No. 271 -- Page 12.

THE base of this chair is made of iron, porcelain enameled, in a beautiful snowy white. All exposed metal parts are nickel plated. The upholstering is done in the very best possible manner and is covered with a high quality of genuine leather, green in color and having a coarse grain known as goat grain. Equipped with the celebrated Paidar mechanism.

This illustration shows the chair only partially reclined. It can be reclined at any angle from perpendicular to horizontal. The step and platform remains rigid --- they do not move.

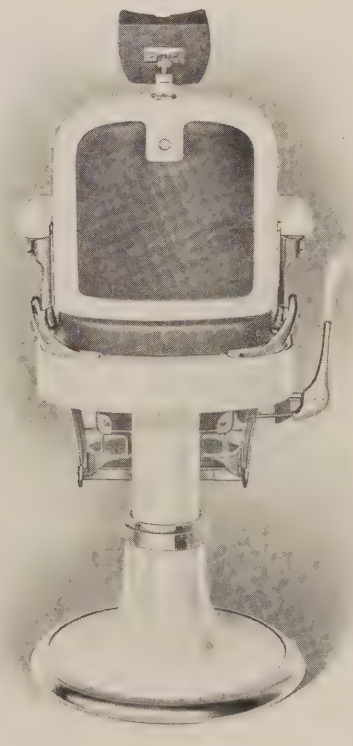
Extra High Bobbing Chair No. 119



No. 119

THIS bobbing chair is made up especially for the work in a beauty shop. The headrest is used only in emergencies when it is desired to do other work than bobbing on the chair. It will be noted that this chair does not have a footrest like on the barbers' chairs and this permits the customer to get in and out of the chair very easily. One of the illustrations show the rear view of the chair, which will give some idea as to how high it might be raised. When at its lowest point the chair measures 27 inches from the floor to the top of the seat and when raised to its height, it measures 35 inches.

THIS chair is made entirely of iron and coated with beautiful white porcelain enamel which makes it perfectly sanitary and very easily kept clean. All other exposed metal parts are highly polished, nickel plated. The chair is fitted with the PAIDAR hydraulic mechanism which permits it to be raised from a height of 27 inches to 35 inches by a few short strokes of the hand lever. To let the chair down, the hand lever is placed forward as far as it will go. The upholstering is done in the very best possible manner. We use a special steel spring construction in the seats and use only the highest quality of material. Black leather is used unless other colors are ordered.

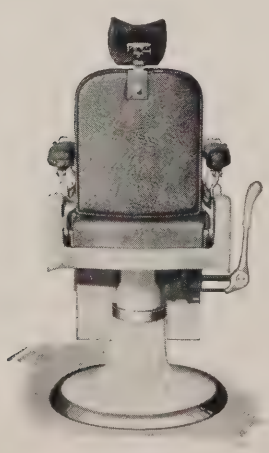


Back View

At its full Height it measures 35 inches from floor to top of seat.

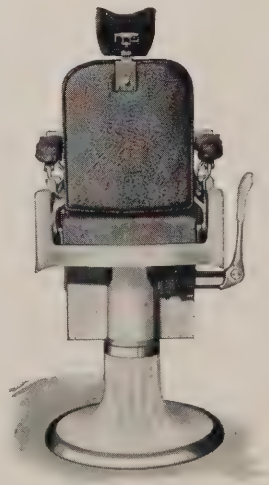
"Paidar" Bobbing Chair No. 82

THIS chair is made especially for hair bobbing. It is made entirely of iron, porcelain enameled, and is fitted with hydraulic mechanism which permits it to be raised from 27 inches at the lowest point to 35 inches at the highest. It can be revolved in a space of 44 inches. It can also be reclined in case it is desired to use the chair for shampooing or facials. This chair is upholstered in the very best possible manner and is covered with genuine blue leather of a superior quality. Note the narrow back. This permits the operator to stand very close while doing the work.



At its lowest 27 inches to top of seat.

An extra high chair made especially for hair-bobbing. Very narrow back may be used for Facials --- Shampoo.



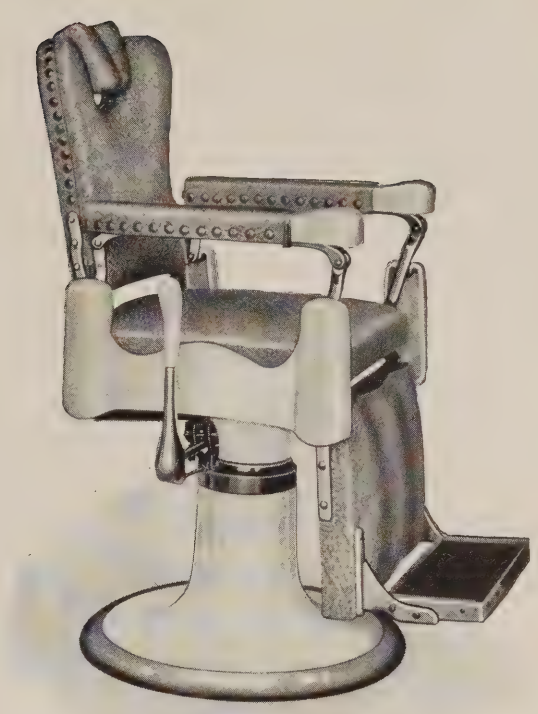
At its highest 35 inches to top of seat.

"Paidar"—No. 74
Extra High Bobbing Chair

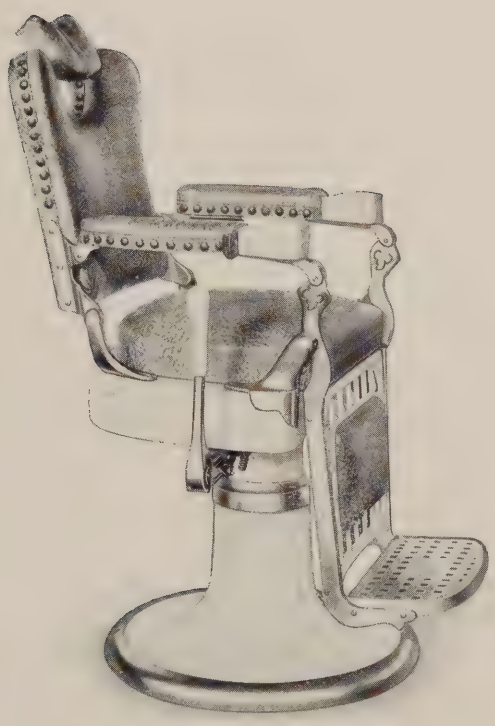
Hydraulic, Raising and Lowering, Revolving and Reclining

Bobbing and Massaging Chair for Operators Who Prefer to Stand When Working

THIS is the chair to fill the requirements of one who wishes a chair to raise and lower. Made entirely of iron, porcelain enameled. Hydraulic mechanism. Revolving and reclining to 45 degrees. All metal parts heavily nickel plated. Raises 5½ inches. Covered with genuine gray leather unless otherwise ordered. Height from floor to top of seat, 27½ inches when down.



No. 74
Extra High Bobbing Chair



No. 77

No. 77
Bobbing Chair

Hydraulic - Raising - Lowering Revolving - Reclining

CAN be used for bobbing and facials. Reclines to 45 degrees, and is 24½ inches from floor to top of seat when down, and 30 inches when raised as high as it will go. Made entirely of iron, porcelain enameled and covered with genuine gray leather.

No. 7534. Bobbing Chair

THIS chair is made of birch wood, well seasoned and white enamel finish. The seat, arms and back is covered with black leather. Space between arms, 19½ inches. Height from seat to floor, 30 inches.

Can be furnished in colors as per color chart.

No. 7533. Bobbing Chair

MADE of best quality wood, well seasoned and white enamel finish. Step is six inches wide; the seat is 30 inches high.

Can be furnished in colors as per color chart.

No. 80. Bobbing Chair

No. 80. Bobbing Chair

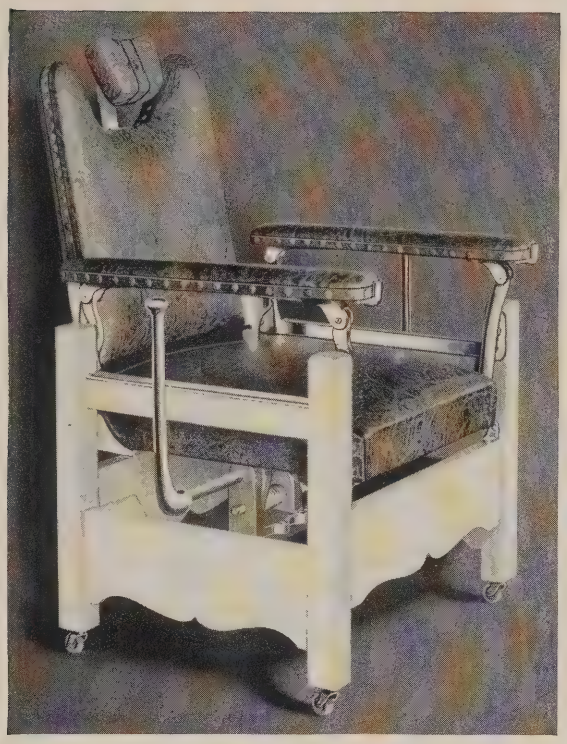
Raises---Revolves---Lowers

THIS chair is fitted with hydraulic mechanism, so it can be pumped up or lowered, as desired, and will also revolve.

The base is of iron porcelain enameled. The top is of wood, white enameled and upholstered with genuine black leather. When at its lowest. it measures 22 inches from floor to top of seat, and 28 inches when at its highest.

Permanent Wave and Shampoo Chair

No. 269

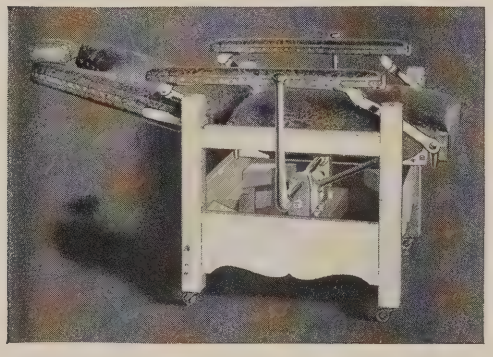


No. 269. Chair

This is the permanent wave chair, which is made especially for that class of work. It can be used for other work as shown on the additional photograph.

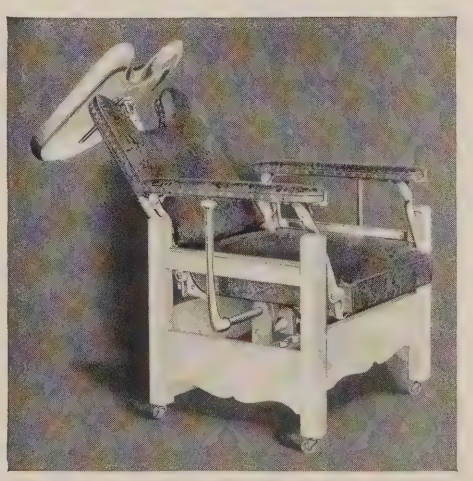
THIS chair is built especially for permanent waving. It stands only 17½ inches from the floor to the top of the seat and is equipped with a narrow back which permits the operator to get very close to the customer. The back can be reclined to any position. This is done on account of so many people being a little more comfortable if the back is tilted slightly. A pressure on the hand lever unlocks the mechanism and the back can be laid down and will lock in any angle as soon as the pressure on the hand lever is released. The headrest used on this chair is unusually small so that it may be used to support the head while the tubes are being attached to the hair, or while the heaters are in operation. This chair is made with a wood frame, finished in white enamel and is upholstered in the best possible manner and covered with blue leather. If any other color of upholstering or finish is desired, it can be had when so ordered.

Can be furnished in colors as per color chart.



This illustration shows the chair laid back as far as it will go. In this position it can be used for facials. A footrest is suggested for the additional comfort of the customer.

For footrest, see page 29.



This illustration shows the chair with a shampoo board in place of the headrest. This is the most comfortable shampoo chair made and might be used without the board where the large shampoo bowls have been installed. Height, from floor to top of back, 35 inches.

Permanent Wave Chair No. 201

No. 201

HERE is a chair that is built especially for permanent waving and for the comfort of the customer while having wave done. The seat cushion is built up of unusually soft springs and it is what is known in upholstering as double stuffed and hand stitched. There is no higher class work done. All the material used in the upholstering is of the very highest quality and is covered with blue leather unless other colors are ordered. The frame is made of the best seasoned wood and finished with white enamel or any other color that may be desired. The back is shaped so that it is very comfortable to the customer and it being narrow permits the operator to stand very close. The front legs are fitted with easy moving rollers. The back legs have no rollers so that the chair does not move when the operator leans against it.

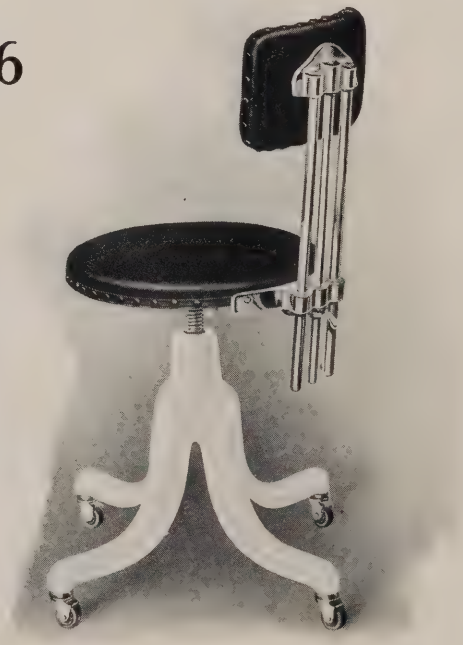
Height to the top of back, 34½ inches. Height to the top of seat, 18 inches. Size of seat, 20 inches wide, 21 inches front to back.

Can be furnished in colors as per color chart.

Utility Chair No. 1066

THIS chair is intended as a utility chair. It can be used for many purposes. As an operator's stool it is unusually comfortable; the back being adjustable to any desired height. It also is very serviceable as a manicure chair or can be used for hairdressing. It is on easy moving PERFECT casters and is fitted with a screw so that it can be raised from 17 inches to 23 inches. The base of this chair is made of iron porcelain enameled. The seat and back is covered with genuine black leather and all other metal parts are highly nickel plated.

Porcelain Parts Can be furnished in Jade Green -- Apple Green -- Ivory or Black At a small extra charge.



No. 1066

No. 871. Reclined

No. 871. Upright

No. 871. Utility Chair

THIS very high class hair dressers' chair can be used for all purposes. The base is made of iron porcelain enameled and is furnished with casters. The back is adjustable to several different angles which makes it possible to use the chair for shampooing or facials. The height from the floor to the top of the seat is 16½ inches and can be raised 6 inches. This chair comes fitted with an adjustable headrest. A shampoo board may be inserted into the back in place of the headrest. This chair is covered with genuine blue leather. It may be had in different colors if so ordered.

Fitted with patent lock to prevent revolving.

Porcelain Parts

can be furnished in Jade Green, Apple Green, Ivory or Black at a small extra charge.

No. 875. Chair

THIS chair is made with an iron base, porcelain enameled finish, while the top is of wood white enameled and is upholstered with grey textile leather. This chair can be used for shampooing or facials by adjusting the back. It is fitted with casters and measures 16½ inches to the top of the seat, but can be raised by revolving 6 inches higher.

Fitted with lock to prevent turning.

No. 873. Marcel Chair

THIS chair is fitted with an iron base porcelain enameled finish and the upper part is made of wood and upholstered in grey textile leather. It is fitted with casters and measures 16½ inches from the floor to the top of the seat.

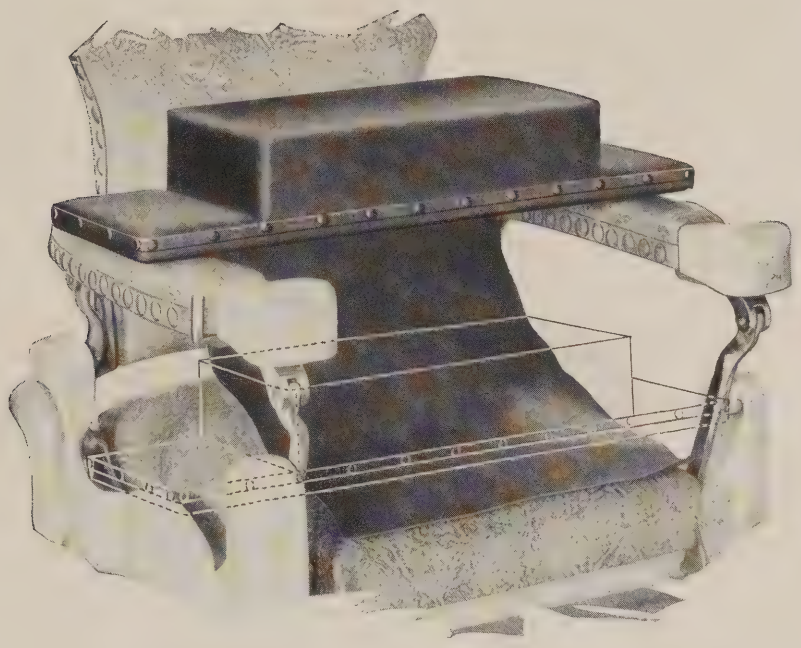
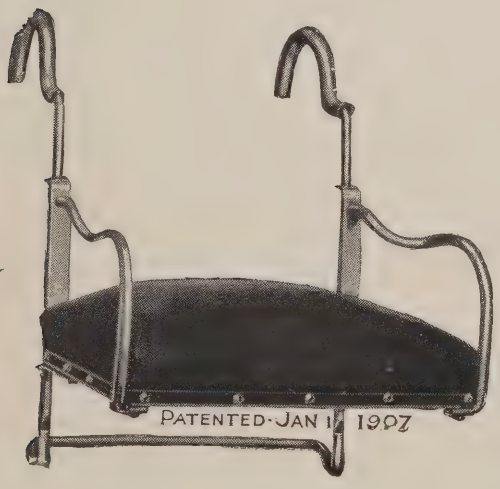
Seats for Bobbing



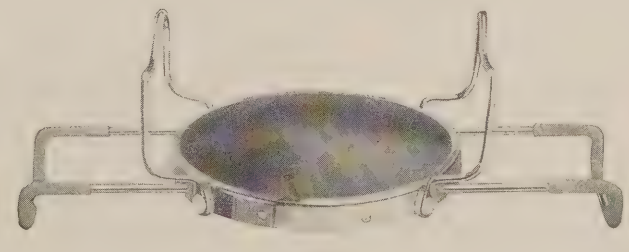
No. 17. Children's Seat

THE seat is made of wood, entirely covered with black imitation leather, and has an apron to cover the seat of the chair, so as to protect it from the child's feet. This seat is made so that it has really three heights. When placed on the arm of the chair, as shown, it is at the highest. When reversed so the box is downward, it is about four inches lower. When placed on the cushion as outlined, it is still lower.



No. 20. Children's Seat

MADE to hang over the back of barber's chair. It is adjustable to three heights, and is very substantial. Nickel plated finish and seat of black leatherette.



No. 15. Children's Seat

THIS seat is adjustable so as to fit across the arm of any barber chair. It is nickel plated finish, and the seat is of black leatherette.

No. 399. Chiropodist Chair

THIS chair is made entirely of iron. It is porcelain enamel finish and all exposed metal parts are nickel-plated. The upholstering is done in the best possible manner and a very high quality of black leather is used. This chair measures 25 inches from the floor to the top of the seat and can be raised 5½ inches. The hydraulic mechanism is operated by the hand lever on the side. The back can be laid perfectly flat and is controlled by the small lever at the back of the seat frame. The footrest can be adjusted to any desired position; is equipped with a patent quick operating lock.

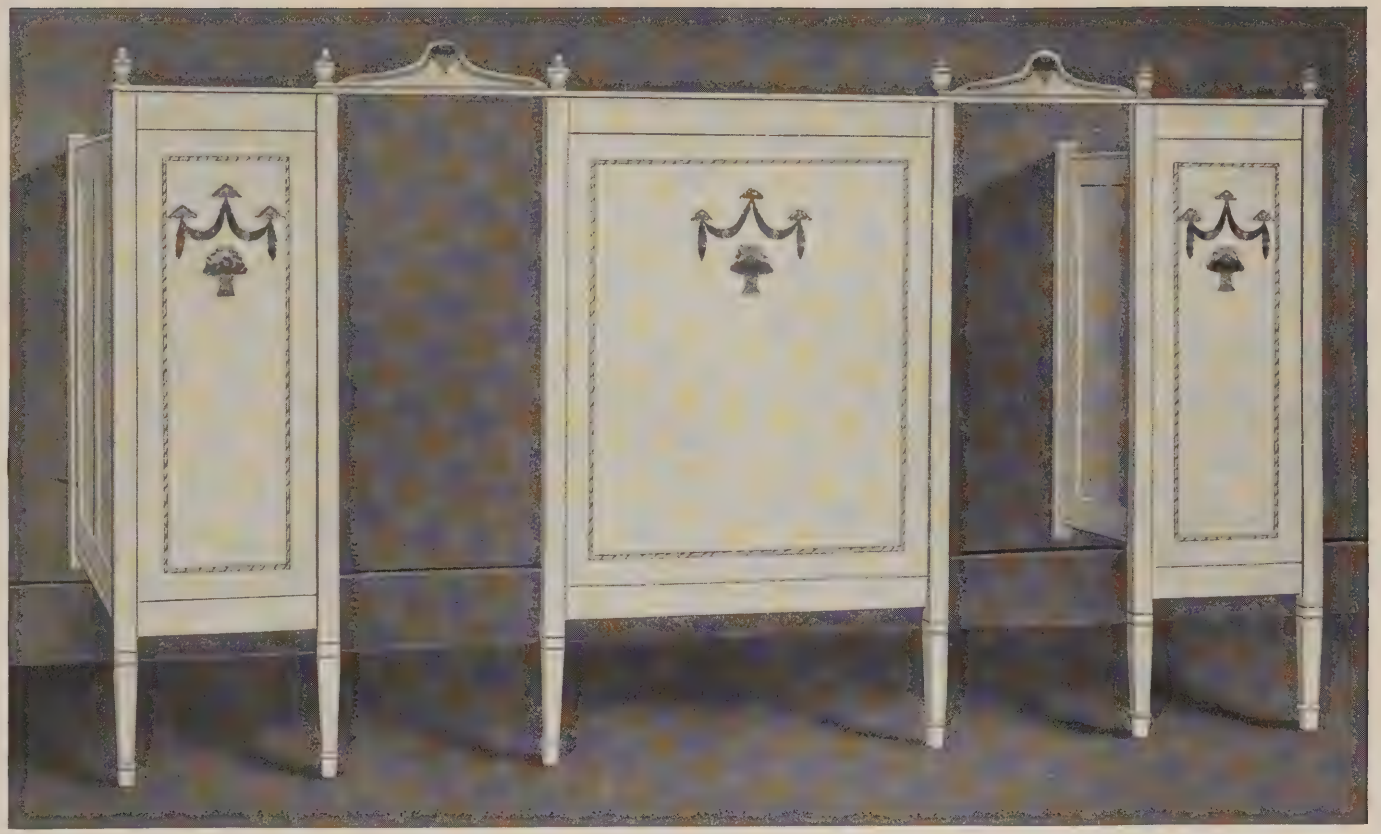
will be extra.



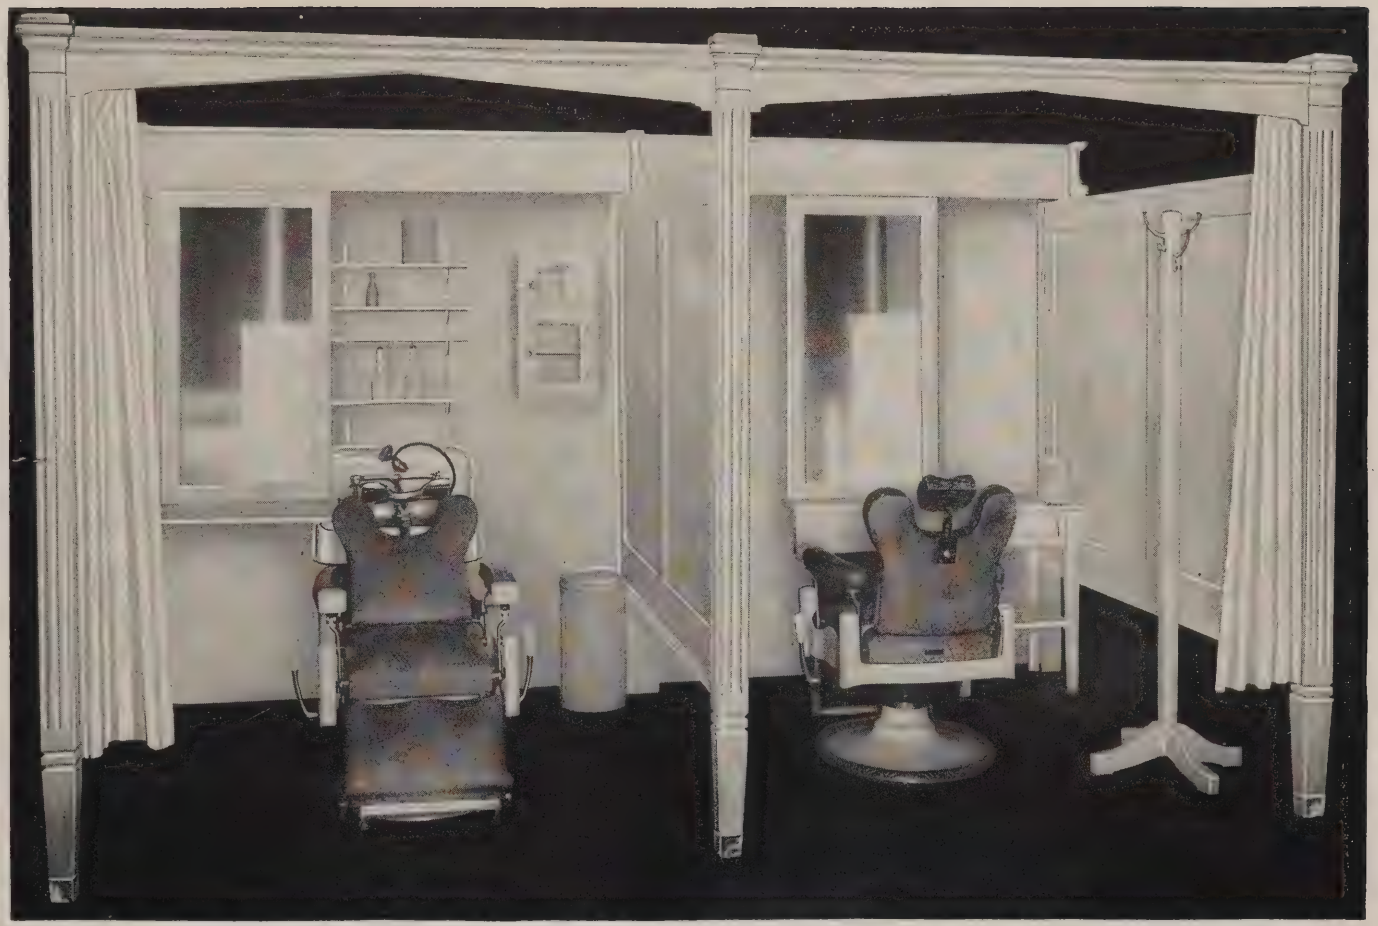
No. 782. Booth

THESE booth panels are made of well seasoned lumber. The posts are solid and the panels are what is known as three-ply veneer, which is considered much stronger than solid wood. The decorations are beautifully colored, while the panels and other woodwork is pure white unless otherwise ordered. The shoes on the end of the posts are iron porcelain enameled. The side panels are used only on the extreme ends of the booth. In the fixtures for two booths or more, the separation is made by an iron pipe extending from the booth to the wall on which a curtain is hung. Front panels measure 7 feet to extreme top. The side panels measure 6½ feet from front to rear, making the inside of booth 6x6½ feet.

Number ***781***—Single booth, 6 feet wide.
Number ***782***—(Shown above) two booths, 12 feet long.
Number ***783***—Three booths, 18 feet long.
Number ***784***—Four booths, 24 feet.
Number ***785***—Five booths, 30 feet.

Can be furnished in colors as per color chart.

Curtains are nor included with these booths.



No. 650. The Empaco Booth. Latest and Most Modern

THESE are what may be called universal booths, wherein all work may be performed without the customer or operator leaving the booth.

The sliding mirror may be placed directly in the center when hair is being dressed, and placed on one side for shampoo or facials, so as to have free access to lavatory, which should be placed in the center. The advantage of these booths is that one operator does all work, and customers do not like to have several different operators work on them, and the customer need not leave the chair.

The booths are made of the best thoroughly seasoned wood and finished in white enamel, unless otherwise ordered.

Can be furnished in Colors as per color chart.

THE illustration shows one booth with mirror in center over the lavatory, and the other with mirror to one side.

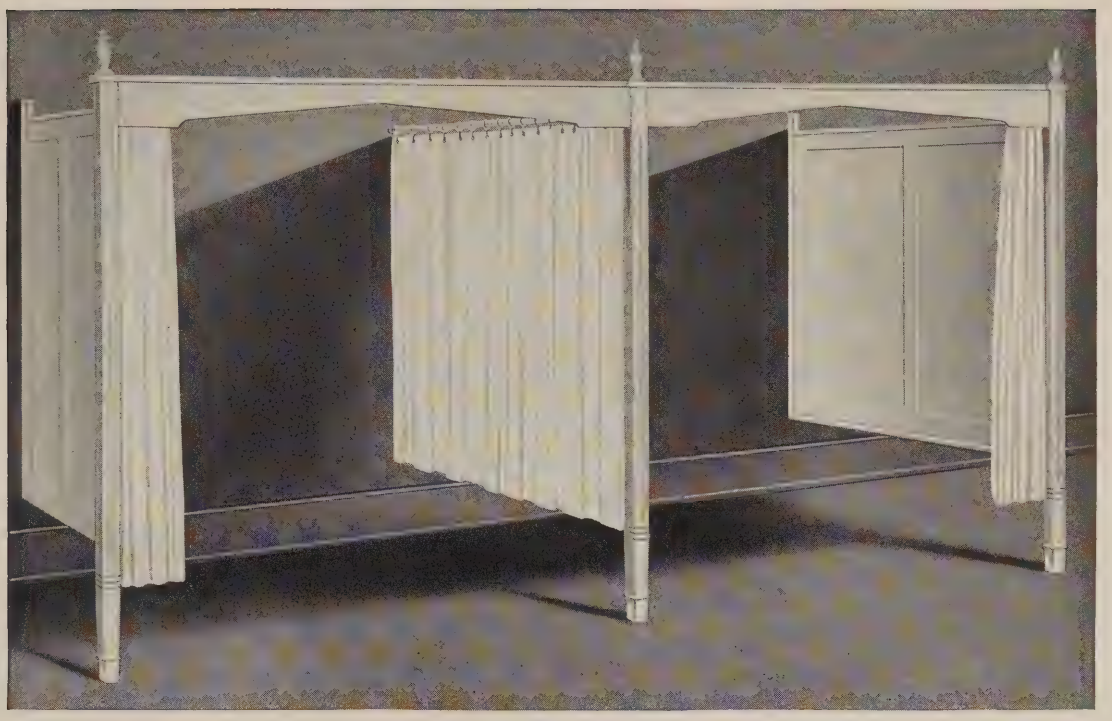
Size of booth:

Height at highest point, which is front post.....7 feet, 9 in.	Side to side.....6 ft.
Height to top of panel.....6½ feet	Size of mirror.....20x42
Front to rear.....6½ feet	White glass shelf.....9x26

Booth furnished with mirror, curtain rod and rings only.

The lavatory, shelves, sterilizer, etc., are not furnished with the booth. These items are quoted elsewhere in this catalogue.

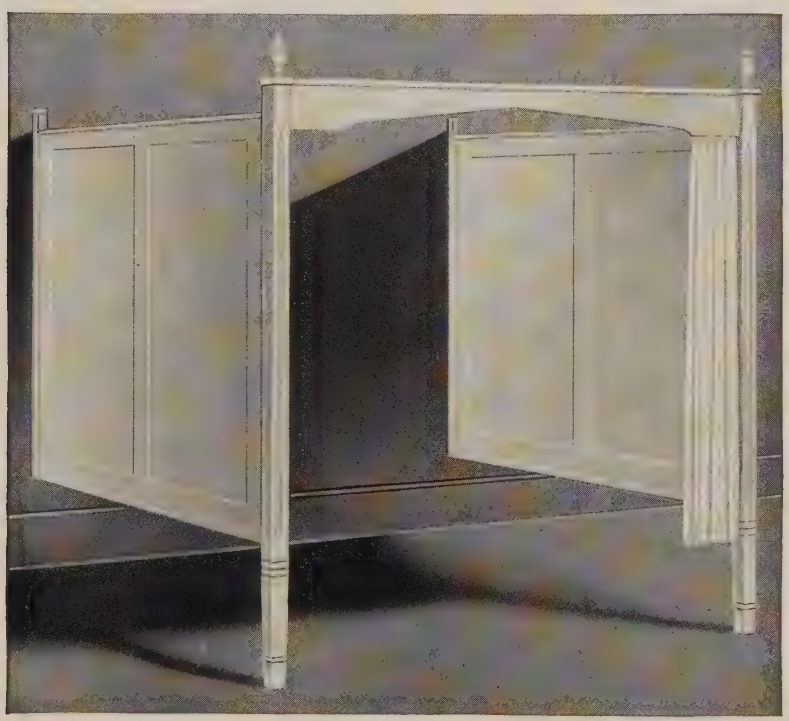
CURTAINS NOT FURNISHED—Unless Ordered Extra.



No. 882. Booth

THESE booths are very popular, being made up with wood panels on the outside end, and curtains separating the booths. They are made entirely of wood white enameled finish, and are fitted with porcelain enameled shoes on the end of the posts. The panels are 18 inches from the floor and extend to a height of 6 feet. Measurement from the floor to the top of the booth is 7 feet. The rod separating the both is metal, nickel plated finish. Depth from front to rear, 6 feet, 6 inches.

CURTAINS NOT INCLUDED IN PRICE.



No. 881. Booth

White always furnished unless otherwise ordered.

See color chart for other colors.

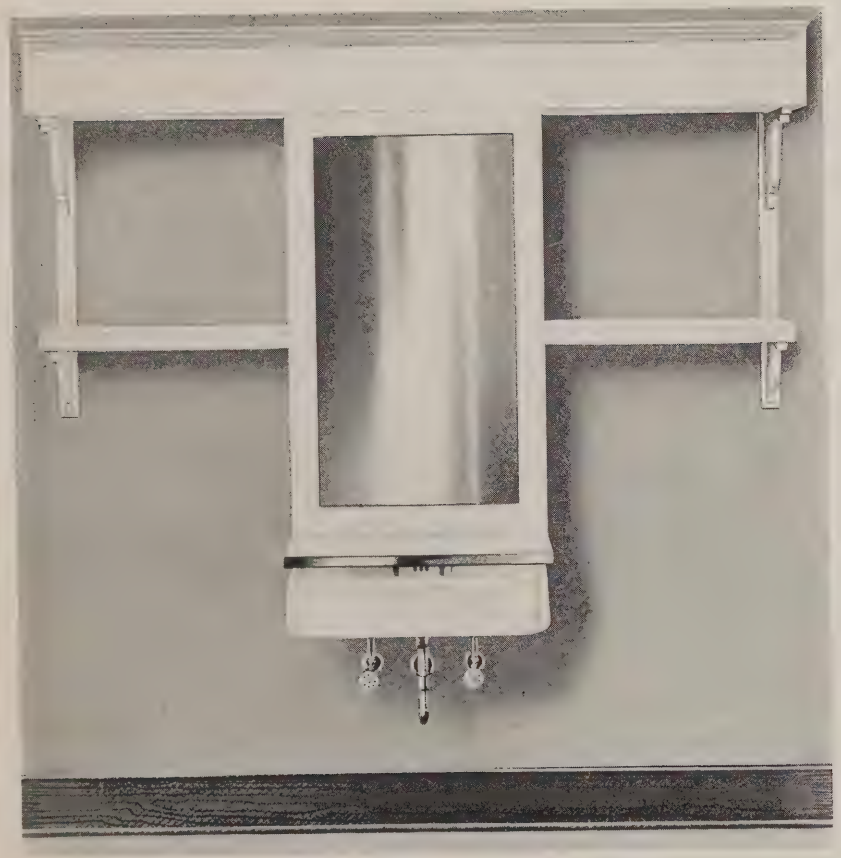
Width, over all, 6 feet, 6 ins.

No. 882—2 booths—
Width, over all, 12 feet, 9 ins.

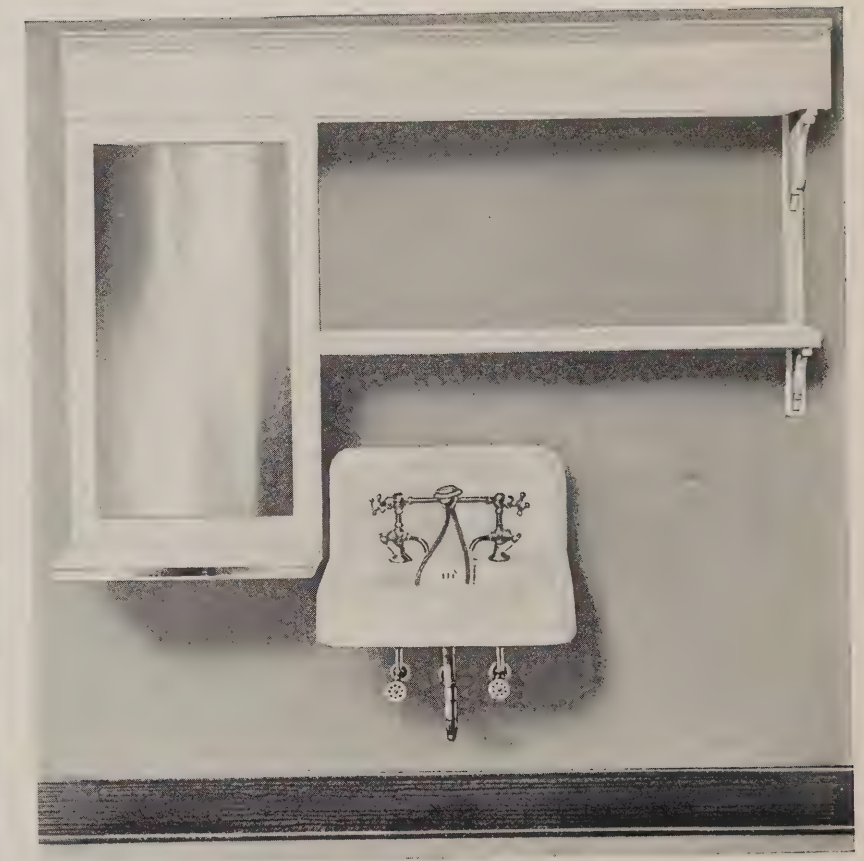
No. 883—3 booths—
Width, over all, 19 feet.

No. 884—4 booths—
Width, over all, 25 feet, 3 ins.

No. 885—5 booths—
Width, over all, 31 feet, 6 ins.



No. 690. Sliding Mirror Fixture
(Mirror in center)



No. 690. Sliding Mirror Fixture
(Mirror to left)

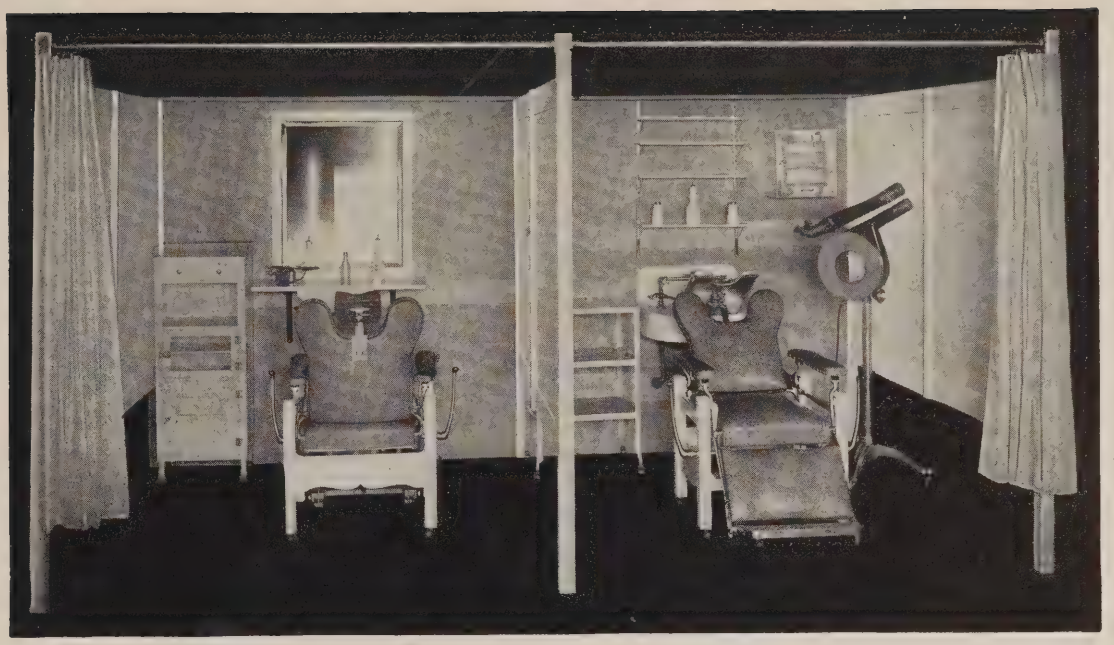
No. 690. Sliding Mirror Fixture

THE very latest idea in Booth equipment. Every booth may be used for facial or shampoo by installing these fixtures. We furnish the fixture complete ready to attach to the wall, including mirror with shelf, also top portion and uprights. Shelf on mirror is 9x26-inch, made of white glass. The mirror is 20x42 inches. This Mirror is made to slide to one side when it is desired to use the lavatory.

Size from side to side 72 inches. Shelf Behind Mirror -- 10 x 72 Inches.
Lavatory NOT Furnished Unless Ordered.

White Enamel Finish Unless otherwise ordered.

See Color Chart for other Colors.



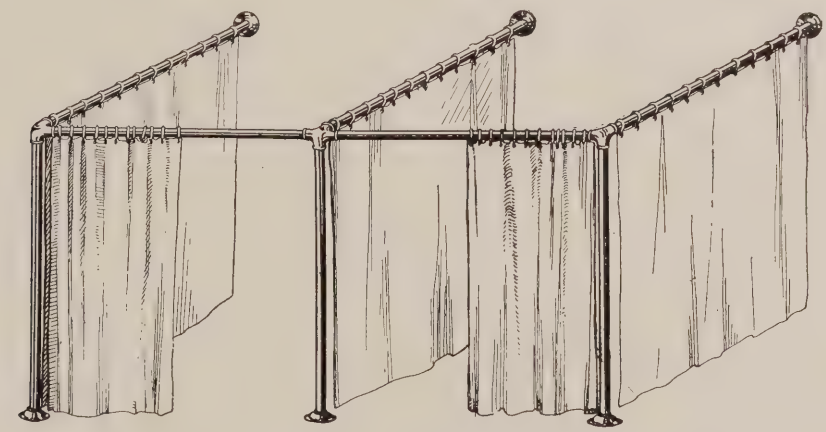
No. 670. Booth

THESE BOOTHS are very neat and attractive. The panels are of wood, white enameled, the rod across the front is iron and aluminum finish.

Can be furnished in Colors as per color chart.

Height to rod	6½ feet
Height to top of panel	6 feet
Front to rear	6½ feet
Width, side to side	6 feet

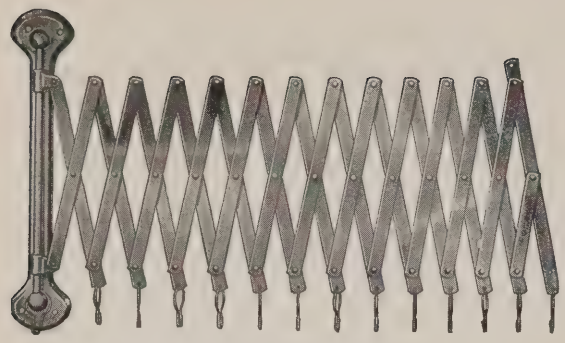
Booth furnished with rod and rings only. (The chairs, curtains, cabinets, shelves, mirror or dryer are not furnished with the booths. These items are shown elsewhere in the catalog.) We furnish side panels only, the rear is the wall of room.



No. 680. Booth Frames

MADE of heavy iron pipe, aluminum finish. A very practicable and inexpensive fixture. Size 6½ feet wide and 6½ feet high and 6½ feet deep. Furnished with wall and floor flanges, also rings for curtain. Can be purchased as one or more booths, curtain extra.

Curtains Extra. Size 6½ by 5½ feet.



Curtain Extensions

THESE extensions are made extra heavy and are of steel with malleable iron brackets.

No. 31—5 feet. Oxidized copper finish.
No. 32—7 feet. Oxidized copper finish.
No. 33—5 feet. Nickel plate finish.
No. 34—7 feet. Nickel plate finish.

Curtains
For Booths or Extension

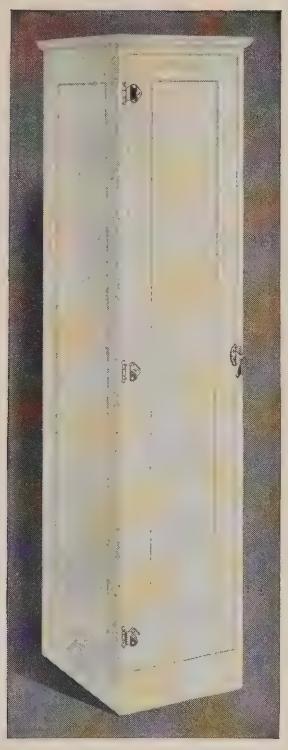
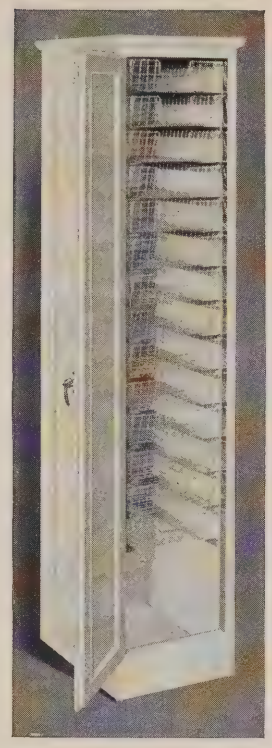
No. 5-B Sterilizer

MADE the same as above and fitted with only three shelves. Height, 12 inches; width, 13¼ inches; depth, 9 inches.



Front

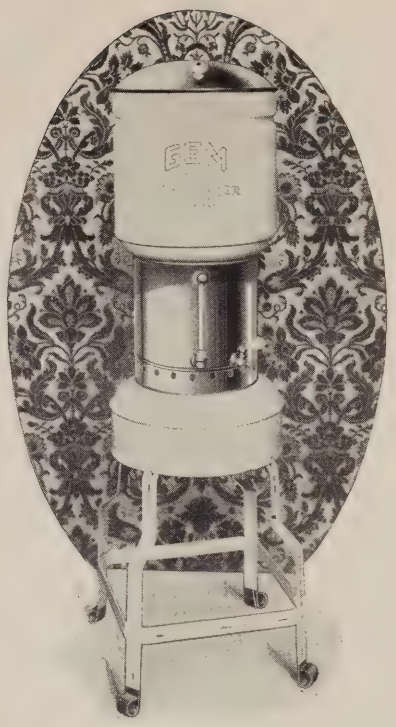


Inside

No. 215. Shop Sterilizer

THIS sterilizer is intended for the larger shops and you will note it is provided with 12 wire baskets in which the various tools are placed. Cabinet is made entirely of well seasoned wood, white enameled finish or any other color that might be selected. It measures 13½ inches wide. 18 inches from front to rear, and 63 inches high. The sterilization is accomplished by the use of a formaldehyde solution which can be purchased in any drug store.

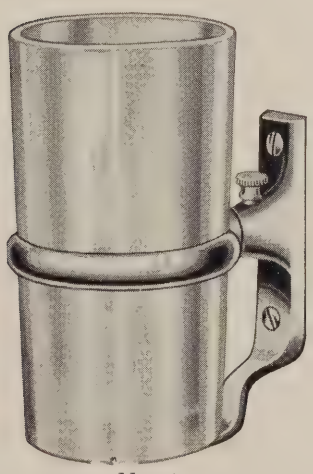
Can be furnished in Colors as per color chart.



Gem Sterilizer

THIS is an age of advancement. Patrons and clients are demanding up-to-date appliances. The Gem Sterilizer is the last word in sterilizing equipment. It performs the tasks much better than the old methods and more satisfactorily.

The Gem Sterilizer is of pleasing appearance. It has been carefully designed, with an attractive combination of white porcelain and nickel. It will add beauty to any establishment; 43 inches high. Floor space, 14x14 inches. Will hold about ten Turkish towels.



No. 117
Tool Sterilizer

THIS Sterilizer is for razors and should be placed in front of each chair. Water is placed in the glass and heated with the Immersion Heater, which will cause the water to boil. The tools are then inserted. This is the best method of sterilization.

No. 118
Immersion Heater

No. 420
Display Case

THIS display case, we think, fills a long felt need. The cabinet itself is 15 inches square and 30 inches high, making a beautiful case and can be used on the table as furnished or it can be placed on a counter, or large show case. The height of table is 30 inches and measures at the top 16x16 inches. This case can be bought without the table, if desired. The entire fixture is made of wood, white enameled finish.

Can be furnished in Colors as per color chart.

Empaco -- Economy Water Heater and Sterilizer Economical and Convenient

THIS sterilizer and water heater is a practical apparatus and will give perfect satisfaction in barber shops where not too large a number of hot towels are in constant use. Heavy galvanized sterilizing shelf provides a compartment for hot steam towels. The tank rests on brackets with iron grate and is heated by a gasoline fixture.

Simplicity—Sanitation Speed—Safety

EACH a requisite for successful permanent waving. Le Mur includes them all—and has developed them to a high degree. Simple and sturdy in design and construction—the clean-cut, graceful appearance of Le Mur Equipment is an asset to the most attractive shop. Lower in price, too—one that is not a burden on you.

With Le Mur you are assured of charming, lasting waves which all women now demand. The Le Mur Method is recognized as the simplest, safest and most comfortable method of permanent waving—and conceded by all operators the easiest to master. The complete Le Mur Method assures you of soft, lovely, uniform waves in any texture hair—more natural than ever possible before. There are now thousands of profitable, substantial shops all over the country—built on the Le Mur Method—positive evidence why your machine should be a Le Mur, too.

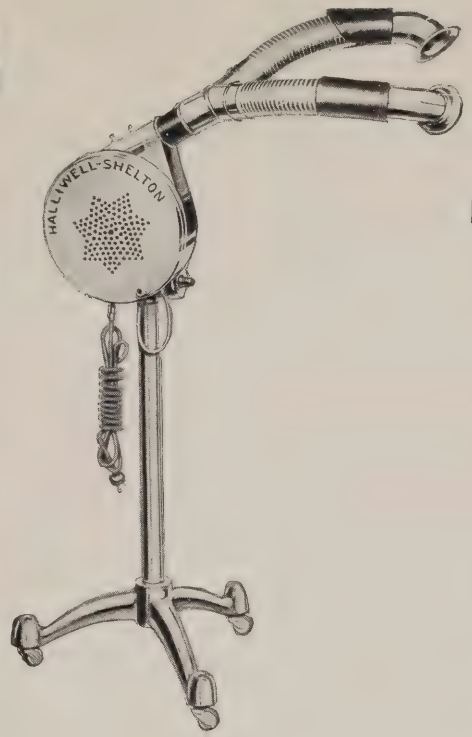
Halliwell-Shelton Hair Dryer

THIS dryer represents the highest possible development of Hair Dryer ideals. It is equipped with a patented variable Heat Control Switch, three-speed motor switch (operates backward and forward.) Specially constructed removable Heating Element. It is highly polished, solid aluminum with special Nickel-plated General Electric Motor (self-oiling), also "Perfect" Casters.



No. E. 43

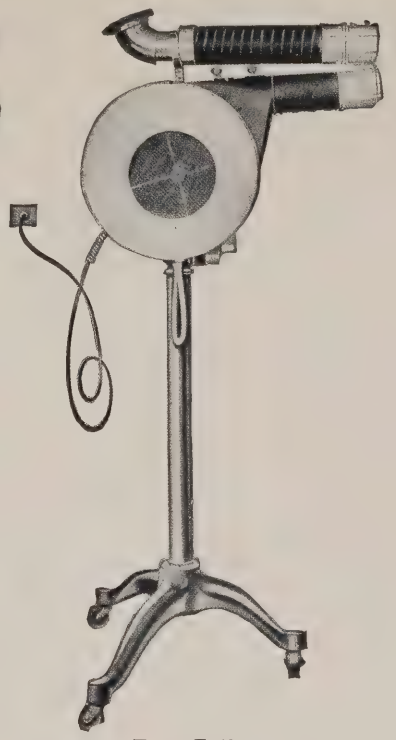
Halliwell-Shelton Dryer

Half The Time
Half The Operating Expense
Twice The Efficiency

THIS new Halliwell-Shelton Dryer with double outlet, is equivalent to ***two Dryers in one.***

Adjusted to any angle. Drys the entire head at the same time.

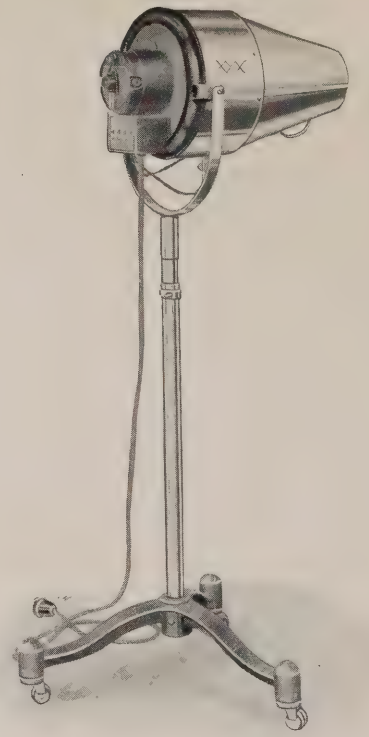
NINE variations of heat —— THREE speeds.



Type E-42
Halliwell-Shelton Hair Dryer

THIS model is considered the most perfect for expert professional and general beauty parlor use. It can be employed for all classes of work and is especially recommended in connection with water waving, because of the nine combinations of speed and heat control. These are as follows:—

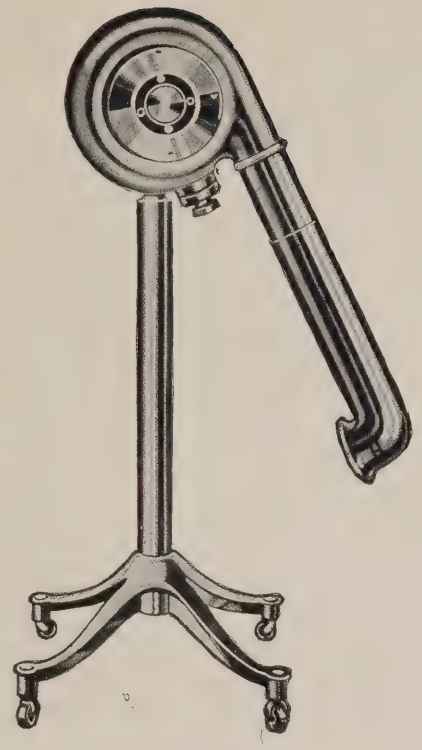
1—Cold air, first speed.
2—Cold air, second speed.
3—Cold air, third speed.
4—Warm air, half-heat, first speed.
5—Hot air, half-heat, second speed.
6—Hot air, half-heat, third speed.
7—Full heat, first speed.
8—Full heat, second speed.
9—Full heat, third speed.



Meyer's

Sun-Aero Hair Dryer

THE very latest in Dryers, this machine is fitted with an electric light which furnishes heat and light and has the same beneficial effect as the sun rays. In addition it has a blower and heater which can be operated in connection with the lamp or separately. Finished in nickel plate with black enamel legs. ***Colored screens are not furnished with dryers unless ordered.***



No. 55

Halliwell-Shelton Dryer

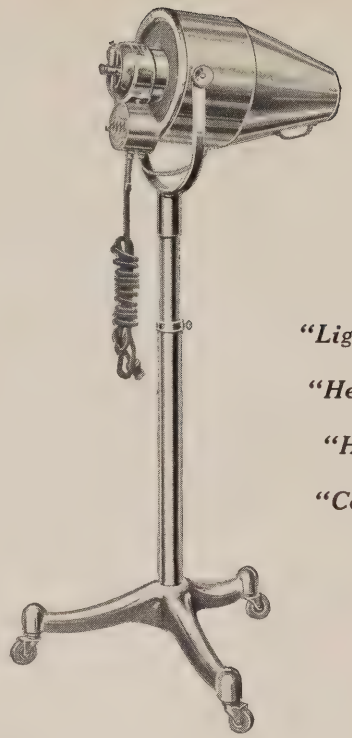
No. G-45

Halliwell Hair Dryer

THIS dryer is operated by electricity, but is heated by gas, as can be seen from the illustration. This is probably the most serviceable machine on the market, as the heat can be regulated according to your needs. Patented three-speed switch.

All Furniture and Equipment Sold for Cash or Easy Payments can be arranged.



No. 175

Halliwell-Shelton Dryer

"Light Rays"

"Heat Rays"

"Hot Air"

"Cold Air"

No. 165

Halliwell-Shelton Dryer

HALLIWELL-SHELTON Dryers with Sun Radiant Lamp dry the hair by a combination of hot and cold air, and "light rays."

The therapeutic value of the light may be used for treatment of the scalp, while the hair is being dried by the force of the air.

Ideal for drying the hair after a Water Wave. The Wave is not disturbed and the hair is dried in its original position.

Instantly adjusted to any height for convenient use. Pedestal mounted to give 12-inch spring adjustment.

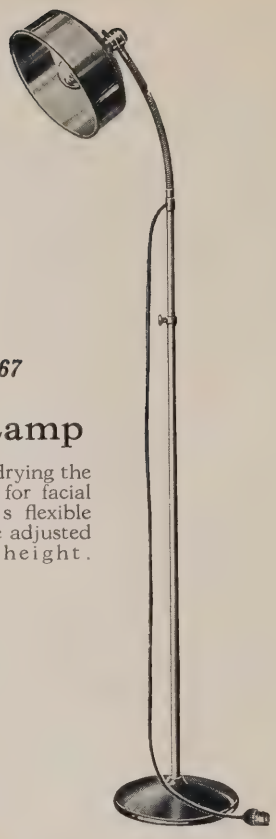
Equipped with deflector for end of hood, and a 375 watt clear lamp.

No. 166

Floor Lamp

Known as Permalite

A LIGHT and heat lamp, very popular for drying water wave. Can be raised and lowered. Has flexible arm so it may be placed in any position.



No. 167

Floor Lamp

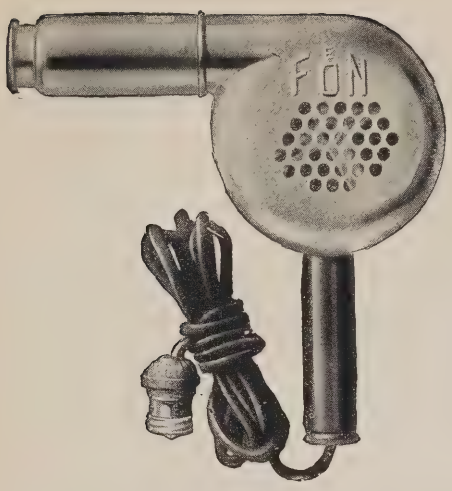
A LAMP for drying the hair and for facial treatment. Has flexible arm and can be adjusted to any desired height.

No. 222. Two-Way Lamp

THIS lamp is of high quality, nickel plated finish. It has flexible arms so that the light can be directed where needed.

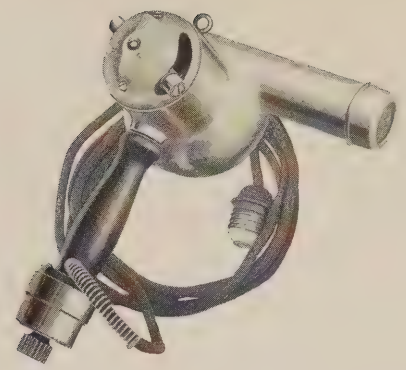
No. 223. Three-Way Lamp

A VERY useful and necessary lamp in the treatment of face and scalp diseases, also the drying of hair, etc. Highly nickel plated with flexible arms so that the lamps can be placed in any position.



The Foen Hair Dryer

A VERY popular and efficient hair dryer for barbers and hairdressers' use. Powerful motor, housed in an aluminum case. Weight, only two pounds. Furnishes hot or cold air immediately after turning on electric current. Needs no oiling and is absolutely safe in operation. Runs on direct or alternating current. Furnished with connecting cord and plug, ready to attach to electric-light fixture.



Royal Hair Dryer

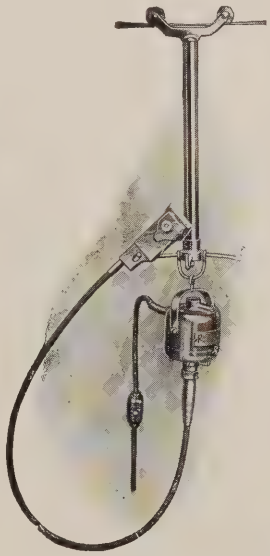
A MACHINE of high quality. The casing is of aluminum, highly polished. High speed fan throws a large volume of air either hot or cold. The volume of air can be regulated as desired.

Electric Hair Cutters

IF YOU have never used an Electric Hair Cutter, you can not realize how easy it is to make a complete hair cut with it. You can do everything with it that can be done with shears, and at a great saving of time and energy. The electricity is used only as a motive power.

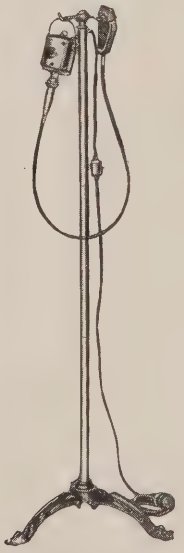
Shelton Portable Dryer

ON THE SHELTON portable hair dryer the casing is made of aluminum and is very light, the weight being 2¾ pounds. Finished in black enamel. Throws a large volume of hot or cold air, controlled by one switch. Operates on alternating or direct current of 110 volts. Furnished complete with silk-lined case and connecting cord plug. A very compact machine. Fully guaranteed.



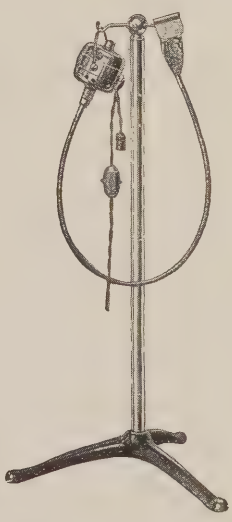
Racine Electric Clipper

Sometimes known as Race. This is a very popular outfit and can be had with either stand or trolley.



Van Osdel Electric Clipper

This cut shows the new cutter head known as Wizard and is spoken of very highly by all that have seen it.



Moore Electric Clipper

Fitted with Radio Cutter Head. A favorite with the barber. Can be had on stand as shown or with trolley.

No. 75 Shelton Gentry Vibrator

THE Shelton "Gentry" Vibrator, while being low priced, is by no means a cheap machine in construction. It is strong and durable. Equipped with a convenient stroke regulator. Strong vibration. Fully guaranteed. Will operate on both alternating and direct current, 110 volts. Gentry complete, with silk lined case and five applicators. Weight, 26 ounces.

No. 19 Shelton De Luxe Vibrator

THE Shelton "De Luxe-Wayne" Vibrator is of a standard design and its special features are air-cooled motor, perfect regulation and lightness in weight, which puts it in a class by itself. The strength of the vibration is controlled by an ingenious lever that changes the stroke from a mere tremor to the strongest stroke that can be used in electric vibratory. Sold under the strongest guarantee. Will operate on both alternating and direct current, 110 volts. De Luxe complete, with silk lined case and seven applicators. Weight, 30 ounces.

No. 71 Shelton Special Vibrator

DESIGNED for exceptionally efficient service, this Shelton Special Vibrator with its high speed penetrating stroke is capable of giving a most vigorous massage. On this machine is a lever regulator which permits a wide range of control, varying from a heavy body vibration to the mild vibration desirable for facial or scalp massage. Every detail is perfect. Will operate on either direct or alternating 110-volt current.

Royal Vibrator

FURNISHED complete with four high grade applicators, eight feet of reinforced, specially made, multiple strand, unbreakable lamp cord, oiler, carrying case and instruction book.

Light in weight—28 ounces—and has smooth running qualities and perfect balance. Its high-powered motor, encased in an aluminum body, is both practical in design and beautiful in appearance, and is equipped with the Royal patented speed control.

"Little Rose" Professional Waving Iron

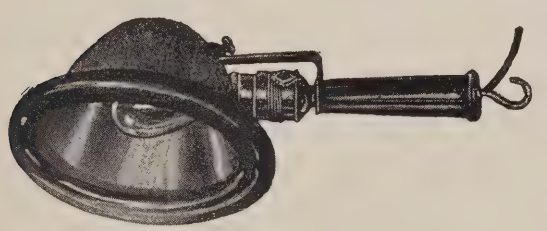
MADE from special cold rolled steel. Loosely fitted joint. Extremely deep groove, both sides filed and ground to give perfect edge, enabling operator to give a deep, lasting wave. Special attention given to close contact, so that fine hair or bangs may be held firmly. Seamless mica handles insulate heat from hands. Riveted handles will not loosen.

No. 22. Shelton Violet Ray

THIS is one of the most efficient machines on the market. Unusually well constructed and made to give off powerful rays which can be regulated with small thumb screw.

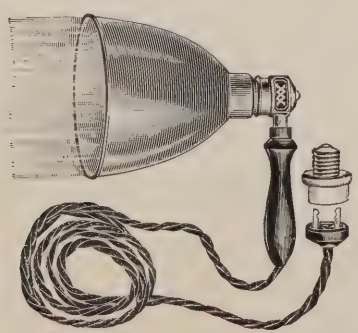
No. 23. Violet Ray

REPRESENTS the last word in violet ray construction and substantiates our statement that "You can pay more but you cannot get better." It is equipped with a fine coil and separable plug. Packed in beautiful silk lined carrying case complete with general comb and face electrodes. The greatest violet ray value ever offered.



No. 20. Beauty Lamp or Radio Bell

AN ESSENTIAL of all modern beauty shops. Made of metal, nickel plated, with wood rim. Furnished with 3 bulbs, red, blue and white.



No. 21. Beauty Lamp

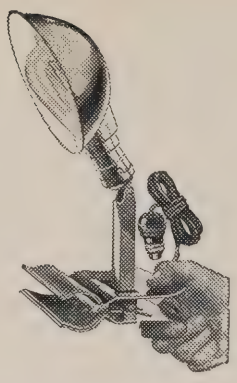
LIGHT WEIGHT as it is made of aluminum, highly polished and furnished with only the red and blue lamps.

No. 249

Meyer's Manicure Lamp

Adjustable and very convenient for operators.

Furnished complete with manicureen of onyxite, cord and plug.



Adjusto Lamp

Can be used anywhere. Made to be attached to the side of table or any other object. Brass finish.

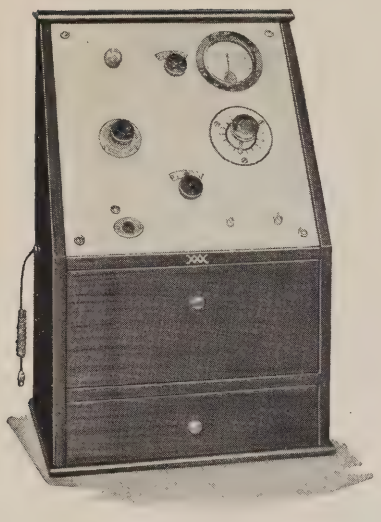
Meyer "Junior" Electrostat



Alternating Current

THE latest and most improved machine on the market, furnishing galvanic, faradic and high frequency currents for giving electric treatments for face and scalp, simple in operation, with perfect control.

Where the electric service current is alternating, it is furnished with the G-539 or G-541 electronic rectifier, silent in operation.

The high frequency current with the Electrostat is regulatable to a nicety for facial or scalp treatments, and is very efficient for fulguration, or destruction of warts, moles and other neoplasms.

The meter and all the coils are on the inside, where they can be but little affected.

The Electrostat is mounted in a mahogany finished frame with the switchboard in the white enamel.

No. G-525—Complete with insulated handle and 1 pr. 5-foot conducting cords, 1 wood electrode handle, 1 each wrist, carbon cylinder, facial and ideal scalp electrodes and electronic rectifier as required where alternating current is used.
Price..... ***$135.00***

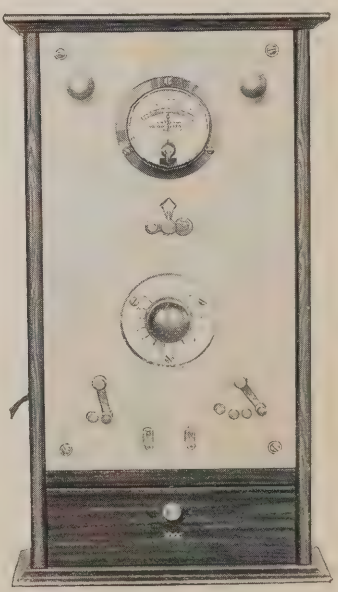
No. G-531—Same as above without electronic rectifier for operation where direct current is used.
Price..... ***$95.00***

Meyer No. 11 Wall Plate

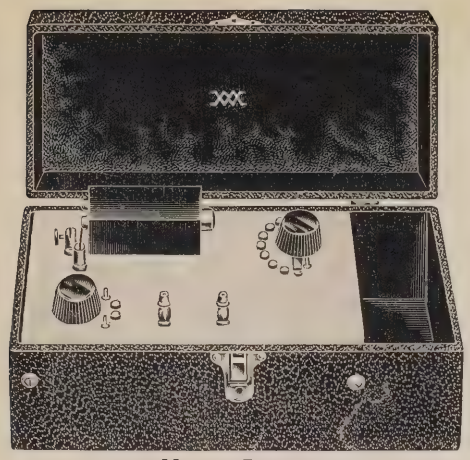
WITH the exception of the Electrostat, this is the best designed wall plate for galvanic and faradic currents, for facial and scalp work. Furnished with a flush type meter, which is very accurate. The current controller gives minute and smooth regulation, and below the plates there is a small container for cords and electrodes. When used where alternating current is required, it is furnished with our G-539 electronic rectifier, which does away with the noisy motor and messy chemicals.

No. G-549—Complete with connecting cord, 1 pr. 5-foot conducting cords, 1 pr. electrode handles, lamps and electronic rectifier as required where alternating current is used.
Price..... ***$87.50***

No. G-508—Same as above, but without electronic rectifier for operation where direct current is used.
Price..... ***$45.00***



No. 11. Wall Plate

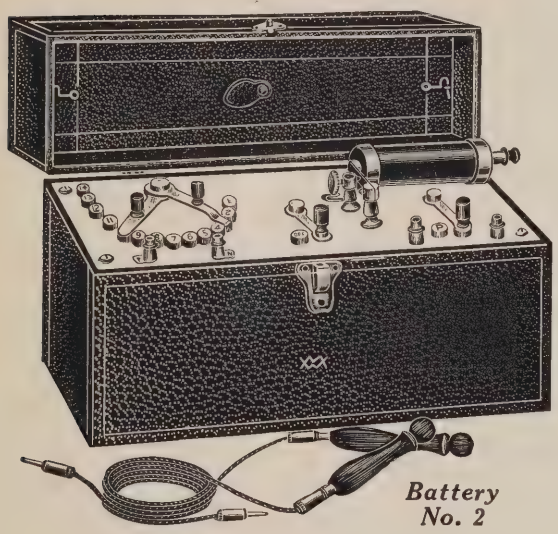


No. 4 Battery

Meyer No. 4A Galvanic and Faradic Battery

AN INEXPENSIVE battery for galvanic and faradic currents, furnished with 1 pair 5-foot conducting cords, 1 metal handle, 1 wood handle for electrodes, 1 carbon cylinder electrode and 1 wrist electrode.

G-512.....**$18.50**



Battery No. 2

Meyer 16 Dry Cell Battery No. 2

FOR the shop owner who cannot afford a wall plate, or for those doing residential work, we recommend the 16-cell battery for galvanic and faradic currents. Furnished with 16 dry cells, 1 pair 5-foot conducting cords, 1 pair wood handles for electrodes.

G-315—Complete.....**$32.50**

Tri-Lite

The Tri-Lite

A SCIENTIFIC combination of three lamps for drying hair. Each lamp is at the right place, angle and distance to cover the hair. The Tri-Lite can be raised or lowered to any height and the reflectors can be turned to the proper angle so that it will dry the hair evenly on the top, sides and back, and without danger of the heat coming in contact with your customer's skin, and cause them to be uncomfortable.

Price, complete with three 260-watt frosted lamps.....**$35.00**

Vapor and Steam Generator

Meyer Vapor and Steam Generator

THE only scientific machine on the market combining both vapor and steam for facial treatments, scalp treatment, reviving the permanent wave and for removing dye from dyed hair.

Progressive shop owners know that hot towels burn the face much as steam would, and have therefore created perfect satisfaction of their customers by using vapor for facial treatments given with the Meyer Vapor and Steam Generator.

The method employed in quickly generating steam with this generator for use in scalp treatments, dye removing and for the reviving of the permanent wave, is very reliable, and requires but a few minutes, with no danger of sudden scaldings.

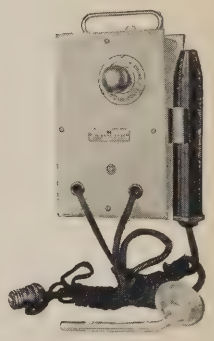
Price.....**$110.00**
Complete with 260 watt frosted and 60 watt blue lamps.

No. 3 High Frequency Apparatus (Violet Ray) Machine

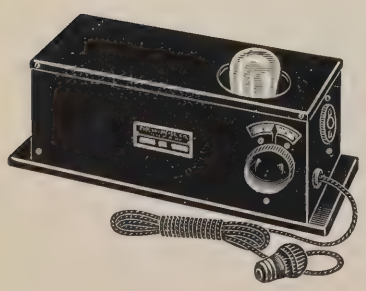
THE illustration shows the machine in a vertical position, with a holder for the handle mounted on the one side of the case, while the other side has holders for two electrodes. It is a very efficient outfit, giving excellent satisfaction and practically fool-proof in adjustment.

The price is such that every beauty shop doing scalp or facial treatment or removing warts, etc. can afford to own one. It is not the cheap drug store type advertised and sold to the general public—it is strictly professional. It can also be used in the horizontal position, flat on a shelf.

No. G-534—Price, complete with facial and ideal scalp electrodes. (Code Word, Frequency.) F. O. B. Chicago.....**$27.50**



No. G-534



Rectifier

Meyer Electronic Rectifier

WHEN you have alternating current in your shop and you want to use a wall plate or electrostat, you must use this electronic rectifier for changing your alternating current to direct current, in order to obtain the galvanic current. With the electronic rectifier you have a smooth, quiet running machine which does away with the noise such as there is with the old motor generator sets. No oiling to do, no carbon brushes to wear down, and no messy chemicals, as with the old style chemical rectifiers. It is connected between the current supply and the wall plate. This is a Meyer invention and eliminates service expense.

No. G-539—For 60 cycle, 110-115 volt, a. c. current..... **$42.50**
No. G-541—For 25 or 30 cycle, 110-115 volt a. c. current..... **52.50**
